The issued capital is BD 1,000 (at the time of incorporation of the Funds Company, approximately US Dollars 2,652). Mashreqbank psc is the Operator/Promoter of the Fund.

The Fund is an open-ended investment fund established by the Funds Company. The Fund is a collective investment scheme established pursuant to the CBB CIU Rules. The Fund is classified as a Retail CIU and has been authorised and approved by the Central Bank of Bahrain and established for a period of 25 years by the Funds Company. The life of the Fund may be extended by the Funds Company at the end of 25 years.

The Base Currency of the Fund is US Dollars. The initial subscription price for each Unit was equal to US Dollars 10.00 (ten US Dollars). The minimum initial subscription is US Dollars 1,000.00 (one thousand US Dollars) for Class B Units and US Dollars 10.00 for Class DI and Class DA Units. The Fund, being an open-end fund, will offer Units on a continuous basis by authorised Placement Agent(s), in compliance with the applicable laws and regulations. The Fund intends to seek listing on one or more stock exchanges within the GCC where its Units may be distributed. Currently Class B Units are listed on the Bahrain Bourse; it is anticipated that Class DI and Class DA Units will be listed as well.

Any change to the Prospectus must be approved by the Directors and shall be subject to the approval of the Central Bank of Bahrain and will be notified to Unit Holders at least thirty (30) calendar days before the changes take effect. For more information on these and other important matters related to the management and administration of the Fund, see Section 4.0 "Management of the Fund".

3.1 Investment Objective

The Fund's primary objective is to achieve long-term capital appreciation by investing primarily in the shares of companies listed on stock exchanges of the MENA region. These investments may be made directly and through other means when deemed appropriate. The Fund may also invest in unlisted securities subject to certain conditions (see Section 3.4 "Investment Policies"). The Fund seeks to achieve competitive returns by investing in a diversified portfolio of the largest companies in the Arab markets. The Fund may make some investments in companies listed outside the MENA region subject to certain conditions (see Section 3.4 "Investment Policies").

3.2 Investment Strategy and Process

The Investment Manager has substantial resources at its disposal to analyse regional economies both at a macro and micro level. The Investment Manager has developed a substantial proprietary research capability to make individual security recommendations, which include making frequent visits and maintaining close contact with management of major corporations in the broader MENA region.

When selecting investments, the Investment Manager will focus on a universe comprising primarily large blue chip companies of the Arab world. Company-specific analysis will be made in the context of a macroeconomic and political framework to determine company allocations within the Fund. In top down analysis, focus will be on such macroeconomic factors as inflation, interest and tax rates, and political climate. In bottom-up analysis, focus will be on company-specific variables, such as competitive industry dynamics, market leadership, proprietary products, services, and management expertise financial

characteristics, such as returns on sales and equity, debt/equity ratios, earnings and cash flow growth will also be considered in the Investment Manager's analytical framework.

Portfolio risk can be considered to be moderate as allocations to individual stocks and sectors will be adequately diversified and broadly reflective of the MENA region stock exchanges. The Fund should be viewed as a moderate risk fund given the focus on the largest stocks in the region; however, due to the nature of emerging markets, investments in these markets should be considered risky.

3.3 Target Markets

The Fund will invest primarily in blue chip companies listed on the MENA stock exchanges, including Bahrain, Egypt, Jordan, Kuwait, Lebanon, Morocco, Oman, Qatar, Saudi Arabia, Tunisia and the United Arab Emirates. Although the Fund will focus primarily on the above exchanges in order to define its investment universe, it may make investments in certain other companies or markets in line with the policies and guidelines (see below 3.4 - I. "Investment Guidelines") outlined in this Prospectus. Investments may be made directly or indirectly through sub-funds or with sub-managers as the Investment Manager deems appropriate. The Central Bank of Bahrain will be informed by the Funds Company of the appointment of any sub-managers, and the Investment Manager will remain responsible for any actions taken by these sub-managers. The Fund may invest in securities that are approved for listing on an authorised exchange, including private placements. The Fund may also invest in securities listed on stock exchanges established outside the MENA region, especially emerging Asia. These investments may be made directly or indirectly as deemed appropriate by the Investment Manager.

3.4 Investment Policies

I. Investment Guidelines

In conducting its investment activities, the Investment Manager shall adhere to the following policies:

- A. Investments in securities of companies listed on stock exchanges forming a part of the MENA region will comprise at least 60% of the NAV of the Fund, not more than 10% of the total NAV of the Fund will be invested with a single party and not more than 20% of the total NAV of the Fund will be invested with a single group of connected parties;

- F. The Investment Manager may invest cash balances in US Dollars and/or other convertible currencies in fixed return securities including, but not limited to, fixed

deposits, treasury bills, certificates of deposit, money market funds, and Islamic securities issued by institutions in the Target Markets, provided that a maximum of 10% of the NAV of the Fund may be placed with a single party (or group of connected counterparties);

- G. The Investment Manager may invest a maximum of 10% of the Fund's total assets in the shares of a single company and not more than 20% of the total assets of the Fund may be placed with a single group of connected parties, except as approved by Central Bank of Bahrain regulations;
- H. The Investment Manager may invest in derivative securities, synthetic instruments, and over the counter instruments/securities up to a maximum of 15% of the NAV of the Fund;
- I. The Investment Manager may arrange short term finance for the Fund to manage its liquidity requirements, provided that it does not exceed 20% of the NAV of the Fund; and
- J. The Fund's Operator/Sponsor may not be a counterparty to the securities transaction.

In the event of any limit exceptions, remedial measures will be taken to bring the same within permitted limits.

II. Investment Restrictions

The Investment Manager may not conduct any of the following transactions for the account of the Fund:

- A. granting loans;
- B. granting collateral and issuing guarantees;
- C. underwriting the issuance of securities;
- D. trading in real estate;
- E. discounting bills of exchange; and
- F. investing in hedge funds.

3.5 Investment Risk Factors

Investors in the Fund are warned that there are risks involved with investing in the Fund which may affect the Fund's performance, including, but not limited to the following:

- I. **High Yield Risk:** High yield securities, which are either rated below investment grade or non-rated, may be subject to greater levels of interest rate, credit and liquidity risk. High yield instruments generally are less liquid and do not trade frequently. The price may be significantly higher or lower than expected and at times, it may be difficult to sell high yield instruments promptly at an acceptable price. An economic downturn or period of rising interest rates could adversely affect the market for these securities.
- II. **Interest Rate Risk:** As nominal interest rates rise, the value of fixed income securities is likely to decrease. Securities with longer maturities tend to be more

sensitive to changes in interest rates, usually making them more volatile than securities with shorter maturities.

- III. **Credit Risk:** The Fund could lose money if the issuer or guarantor of a Fixed Income Security, or the counterparty to a derivatives contract, repurchase agreement or a loan of portfolio securities, is unable or unwilling to make timely principal and/or interest payments, or to otherwise honour its obligations. Securities are subject to varying degrees of credit risk, which are often reflected in credit ratings.
- IV. **Emerging Markets Risk:** The Target Markets are considered emerging markets, and investing in emerging markets may involve special risks different from, or greater than, the risks of investing in developed countries. In particular, emerging markets are characterised by the relative lack of availability of information about issuers or markets due to lax disclosure requirements and accounting standards and/or the absence of stringent regulatory practices. In particular, the regulatory supervision, legal infrastructure and accounting, auditing, and reporting standards in emerging markets may not provide the same degree of Unit Holder protection or information to Unit Holders as would generally exist in more mature or developed markets. Valuation of assets, depreciation, exchange differences, deferred taxation, contingent liabilities and consolidation may be treated differently from international accounting standards. This may affect the valuation of the assets in which the Fund invests.
- V. **Political Risk:** The measure of a country's willingness to honour its foreign obligations and is a function of stability of country's government and its leadership, country's ideological background and country's past history with foreign investors.
- VI. **Liquidity Risk:** Liquidity risk exists when particular investments are difficult to purchase or sell. Fund's investments in illiquid securities may reduce the returns of the Fund because it may be unable to sell the illiquid securities at an advantageous time or price.
- VII. **Market Risk:** The market price of securities may go up or down, sometimes rapidly or unpredictably. Securities may decline in value due to factors affecting securities markets generally or particular industries represented in the securities markets. The value of a security may decline due to general market conditions which are not specifically related to a particular company, such as real or perceived adverse economic conditions, changes in the general outlook for corporate earnings, changes in interest or currency rates or adverse investor sentiment generally. They may also decline due to factors which affect a particular industry or industries, such as labour shortages or increased production costs and competitive conditions within an industry. During a general downturn in the securities markets, multiple asset classes may decline in value simultaneously. Past performance is not a guide for future performance. A Unit Holder may not get back the amount invested. An investment in the Fund should be regarded as long term in nature, and there can be no guarantee that the Fund's objectives will be achieved.
- VIII. **Currency Risk:** The price of the Unit is denominated in US Dollars. There is a risk that the currency of the securities will decline in value relative to the US Dollar. Currency rates in foreign countries may fluctuate significantly over short periods of time for a number of reasons, including changes in interest rates, intervention (or the failure to intervene) by central banks, or by the imposition of currency controls or other political developments.
- IX. **Derivatives Risk:** Derivatives are subject to liquidity risk, interest rate risk, market risk and credit risk. They also involve the "basis risk" - changes in the value of the derivative may not correlate perfectly with the underlying asset.
- X. **Management Risk:** The Fund is subject to management risk because it is an

actively managed investment portfolio. The Investment Manager will apply investment techniques and risk analyses in making investment decisions for the Fund, but there can be no guarantee that these will produce the desired results.

- XI. **MENA Volatility Risks:** Potential Market Volatility in the Middle East and North Africa results from the fact that the prices of certain securities listed on stock markets in the Middle East and North Africa have been subject to sharp fluctuations and sudden declines and no assurance can be given as to the future performance of listed securities in general. Prospective investors should therefore be aware that the value of Units and the income derived from them is likely to fluctuate.
- XII. **Legislation Changes:** The information in this Prospectus is based on existing legislation which may change. The value of the Fund's investments as well as returns may be affected by uncertainties such as political developments, changes in government policies, taxation, including VAT, currency repatriation restrictions, and restrictions on foreign investments in some or all of the countries in which the Fund may directly or indirectly invest.
- XIII. **Limited Recourse:** The Funds Company is licensed by the Central Bank of Bahrain to operate one or more collective investment schemes, such as the Fund. In the event that the Funds Company operates additional collective investment schemes, Unit Holders will only have recourse to the assets of the Fund.

The above-mentioned risk factors are most likely to have a material effect on the Fund's portfolio as a whole. The Fund may be subject to additional risks other than those described above.

3.6 Distribution Policy

The Board intends to declare dividends and/or distributions in respect of the Class DI Units within 20 business days once the quarter ends. The Investment Manager shall at its discretion decide the amount of any dividends to be declared or distributions to be made. Any such dividend or distribution can, at the discretion of the Investment Manager, be made out of all sources (without being exhaustive, profit, realized or unrealized gains, whether or not net of realized or unrealized losses, any dividends or distributions received from the underlying securities, profit earned, any other cash receipts, capital and generally any surpluses) and will be declared within 20 Business Days for the preceding quarter. Upon the declaration of any dividends or distributions to the Unit Holders of the relevant share classes, the Net Asset Value per Unit of the relevant class of the Fund will be reduced by the amount of such dividends or distributions. Payment of the dividends or distributions will be made as indicated on a Unit Holder's subscription form, as amended from time to time, to the account indicated on the Unit Holders register. All Unit Holders recorded in the register of the Registrar and Transfer Agent at the end of the Record Date (including the Record Date transactions) of each quarter shall be eligible for such dividend/distribution. Distributions will be paid out via bank transfer; such transfer shall be net of any transfer fees and any applicable taxes.

The Board does not currently intend to declare cash dividends or other distributions in respect of Class B Units and DA units but reserves the right to do so at any time in its discretion or if such dividends are necessary in light of prevailing market conditions. The declaration of any dividends will be made in accordance with the Law, the CBB CIU Rules and this Prospectus.

Any dividend unclaimed after a period of twelve months from the date of declaration of such dividend will be re-invested back in the favour of the specific Unit Holder.

4.0 MANAGEMENT OF THE FUND

4.1 The Directors

The Directors have overall authority and responsibility for the operation of the Fund. The Directors will exercise supervision and control of the Fund, including deciding matters of general policy and reviewing the actions of the Investment Manager, the Custodian, the Administrator, and the Registrar and Transfer Agent. 5.2 Redemption

Class B Units may be redeemed by the Fund at the request of a Unit Holder as of each Dealing Day at the redemption price per Unit as of such Dealing Day, provided the Unit Holder gives notice to the Investment Manager, the relevant authorised Placement Agent or the Funds Company two (2) Business Days prior to the relevant Dealing Day. The Investment Manager may in its sole discretion waive such notice period. Redemptions may be made at such other times with the consent of and upon such terms of payment as may be approved by the Investment Manager in its sole discretion.

Class DI and class DA Units, at a minimum of USD 100, may be redeemed by the Fund at the request of a Unit Holder as of each Dealing Day at the redemption price per Unit as of such Dealing Day, provided the Unit Holder gives notice to the Investment Manager, the relevant authorised Placement Agent or the Funds Company two (2) Business Days prior to the relevant Dealing Day. The Investment Manager may in its sole discretion waive such notice period. Redemptions may be made at such other times with the consent of and upon such terms of payment as may be approved by the Investment Manager in its sole discretion.

A request for redemption must be made as per the attached Redemption Form and once submitted to the Registrar and Transfer Agent, may not be withdrawn by the Unit Holder except in case of a suspension of redemptions. The consent of the Directors is required for any withdrawal of a redemption request.

Redemption proceeds may be paid in cash or in specie (underlying portfolio holdings of the Fund). If redemption proceeds have to be paid in specie, Unit Holders will be notified at least two (2) Business Days prior to such payment. Cash payments will be made in US Dollars or UAE Dirhams, as per Unit Holders' instructions, and will be remitted by wire transfer to the account from which the original investment was wired after deduction of all relevant expenses.

If on a particular Dealing Day, the amount of the aggregate redemption requests minus the amount of the aggregate subscription requests exceeds 10% of the Fund's NAV, the Fund will be entitled to reduce the redemption requests pro rata (or in such manner as the Fund may deem appropriate) amongst the Unit Holders seeking to redeem on such Dealing Day so that only the Fund's NAV is only reduced by 10%. Requests for redemption of Units which cannot be met on any one Dealing Day will be carried forward to the next Dealing Day, subject to the same provision but will be given priority over subsequent redemption requests. The Units subject to any such deferred redemption request will remain subject to the performance of the Fund. Redemption requests for the remaining Units can only be withdrawn by the Unit Holders with the approval of the Investment Manager, in its sole discretion.

For Class B units partial redemptions will be declined if these are for less than US Dollars 1,000, or if these will cause a Unit Holder to hold Units for an amount lower than the minimum holding amount unless the Directors determine otherwise in their sole discretion.

The Fund has the right upon two (2) Business Days' notice to compulsorily redeem on a Dealing Day any Unit held by a Unit Holder at the redemption price per Unit as at the

Valuation Day immediately prior to such Dealing Day for the following reasons:

- a) the Units are held for the benefit (directly or indirectly) of any Restricted Person, or any other person whose continued holding would subject the Fund, its Unit Holders, the Funds Company and/or the Investment Manager to regulation not otherwise applicable to the Fund, the Funds Company or the Investment Manager or would result in any adverse tax consequences for the Fund, its Unit Holders, the Funds Company and/or the Investment Manager;
- b) the holding amount of a Unit Holder in the Fund is less than US Dollars 1,000 or such other amount determined by the Board of Directors in its sole discretion;
- c) any of the representations of the Unit Holder in its Subscription Agreement were not true when issued or have ceased to be true;
- d) the Articles of Association of the Funds Company otherwise require such redemption; or
- e) for any reason the Fund deems appropriate.

The maximum interval between the request for redemption and the dispatch of the redemption proceeds to the customer's investment account with a licensed institution will be ten (10) Business Days.

5.3 Redemption Price

The redemption price for Class B Units will be equal to the NAV per Unit as determined on the relevant Valuation Day. A redemption fee of 3% of the Net Asset Value (NAV) may be charged to the benefit of the Fund if Units are redeemed by the Unit Holder within the first three months of their purchase, 2% if they are redeemed between three to six months, and 1% if they are redeemed between six to twelve months, unless waived by the Investment Manager in its sole discretion. Part or all of such Redemption Fee may be shared by the Fund with authorised Placement Agents. No Redemption Fee will be payable if the Units are redeemed at the request of a Unit Holder after a holding period of more than twelve months.

The redemption price for Class DI and Class DA Units will be equal to the NAV per Unit as determined on the relevant Valuation Day.

5.4 Suspension of Subscription and Redemption of Units

The Fund may temporarily suspend the determination of the Net Asset Value per Unit and the subscription and redemption of Units upon the occurrence of one or more of the following events:

1. When any Exchange/System on which a substantial portion of the Fund's investments are quoted or dealt is closed otherwise than for ordinary holidays, or during which dealings therein are restricted or suspended in a way that affects the valuation of the Fund's assets;
2. The existence of any state of affairs which constitutes, in the opinion of the Directors, an emergency as a result of which disposal or the valuation of the Fund's assets would be impractical;
3. If on account of restrictions affecting the transfer of funds, transactions on behalf of the Fund are rendered impracticable or if purchase, sale, deposits and withdrawals of Fund assets cannot be effected in the normal course of business;
4. If an order by a Bahraini court or Bahraini regulatory body is issued requiring such suspension. During the suspension period, the Fund shall not issue, redeem, transfer or switch (convert) Units. Where a suspension occurs as described above, the Registrar and Transfer Agent shall notify the Central Bank of Bahrain, as soon as possible and with the reasons thereof. Prior approval from the Central Bank of Bahrain will be sought before recommencement of calculation of the Net Asset Value

per Unit.

5.5 Listing and Transfer of Units

Currently the Class B Units are listed on the Bahrain Bourse; it is anticipated that Class DI and Class DA Units will be listed as well. The Fund may seek listing of the Units on any Stock Exchange, especially other GCC Stock Exchanges. The Investment Manager does not intend at this time to make a secondary market in the Units, but may do so in the future.

The Units may not be directly or indirectly sold, transferred, or assigned, by operation of law or otherwise, without the prior written consent of the Funds Company. Any attempt by a Unit Holder to transfer Units will not be recognised by the Funds Company and the ownership of such Units will remain with the relevant original Unit Holder. Transferees shall be subject to the same terms and conditions as subscribers including but not limited to the provision of information, documents and minimum subscription amount. No transfer will be effected unless a transfer form is completed and signed by both the seller and purchaser or their respective agents and submitted to the Registrar and Transfer Agent.

5.6 Ownership Restrictions and Compulsory Redemption

Investors may subscribe for Units provided legislation or regulations in Bahrain and in their country of citizenship, residence, domicile or incorporation permits them to do so. Persons who have not reached legal majority age are not allowed to subscribe for Units unless he/she has the written authorisation of his/her lawful guardian.

US persons or US residents as defined in regulations under the US Securities Act of 1933 are not allowed to subscribe.

The Fund may compulsorily redeem any Unit, at the prevailing Net Asset Value per Unit, if the Funds Company or the Investment Manager, in their absolute discretion, determine that the holding of any Unit by the relevant Unit Holder is in contravention of any applicable laws or regulations or would result in adverse tax consequences or additional regulation of the Fund, the Funds Company or the Investment Manager.

5.7 Foreign Account Tax Compliance Act

Sections 1471 through 1474 of the U.S. Internal Revenue Code of 1986 ("**FATCA**") impose a new reporting regime and potentially a thirty per cent (30%) withholding tax with respect to certain payments to (a) any non-U.S. financial institution (a **foreign financial institution**, or **FFI** (as defined by FATCA)) that does not become a **Participating FFI** by entering into an agreement with the U.S. Internal Revenue Service ("**IRS**") to provide the IRS with certain information in respect of its account holders and investors or is not otherwise exempt from or in deemed compliance with FATCA; and (b) any investor (unless otherwise exempt from FATCA) that does not provide information sufficient to determine whether the investor is a U.S. person or should otherwise be treated as holding a "United States Account" of the Fund (a **Recalcitrant Holder**). The Fund is classified as an FFI.

The new withholding regime will be phased in beginning 1 July 2014 for payments from sources within the United States of America and will apply to "foreign passthru payments" (a term not yet defined) no earlier than 1 January 2017. This withholding would potentially apply to payments in respect of: (a) any investments characterised as debt (or which are not otherwise characterised as equity and have a fixed term) for U.S. federal tax purposes that are issued on or after the "grandfathering date", which is the date that is six (6) months after the date on which final U.S. Treasury regulations defining the term foreign passthru payment are filed with the Federal Register, or which are materially modified on or

after the grandfathering date; and (b) any investments characterised as equity or which do not have a fixed term for U.S. federal tax purposes, whenever issued.

The United States of America and a number of other jurisdictions have announced their intention to negotiate intergovernmental agreements to facilitate the implementation of FATCA (each, an "**IGA**"). Pursuant to FATCA and the "Model 1" and "Model 2" IGAs released by the United States of America, an FFI in an IGA signatory country could be treated as a "Reporting FI" not subject to withholding under FATCA on any payments it receives. Further, an FFI in a Model 1 IGA jurisdiction generally would not be required to withhold under FATCA or an IGA (or any law implementing an IGA) (any such withholding being **FATCA Withholding**) from payments it makes. The Model 2 IGA leaves open the possibility that a Reporting FI might in the future be required to withhold as a Participating FFI on foreign pass thru payments and payments that it makes to Recalcitrant Holders. Under each Model IGA, a Reporting FI would still be required to report certain information in respect of its account holders and investors to its home government or to the IRS. The United States of America and Bahrain have reached an agreement in substance and an IGA based largely on the Model 1 IGA (the **US-Bahrain IGA**) is treated as "in effect" by U.S. Treasury.

The Fund expects to be treated as an FFI pursuant to the US-Bahrain IGA. However, no assurance can be given that the Fund will be treated as an FFI. If the Fund becomes a Participating FFI under FATCA, the Fund and financial institutions through which payments on the Units are made may be required to withhold FATCA Withholding if: (a) any FFI through or to which payment on such Units is made is not a Participating FFI, a Reporting FI, or otherwise exempt from or in deemed compliance with FATCA; or (b) an investor is a Recalcitrant Holder.

FATCA is particularly complex and its application is uncertain at this time. The above description is based in part on regulations, official guidance and the US-Bahrain IGA, all of which are subject to change or may be implemented in a materially different form. Prospective investors should consult their tax advisers on how these rules may apply to the Fund and to payments they may receive in connection with the Units.

TO ENSURE COMPLIANCE WITH IRS CIRCULAR 230, EACH TAXPAYER IS HEREBY NOTIFIED THAT: (A) ANY TAX DISCUSSION HEREIN IS NOT INTENDED OR WRITTEN TO BE USED, AND CANNOT BE USED BY THE TAXPAYER FOR THE PURPOSE OF AVOIDING U.S. FEDERAL INCOME TAX PENALTIES THAT MAY BE IMPOSED ON THE TAXPAYER; (B) ANY SUCH TAX DISCUSSION WAS WRITTEN TO SUPPORT THE PROMOTION OR MARKETING OF THE TRANSACTIONS OR MATTERS ADDRESSED HEREIN; AND (C) THE TAXPAYER SHOULD SEEK ADVICE BASED ON THE TAXPAYER'S PARTICULAR CIRCUMSTANCES FROM AN INDEPENDENT TAX ADVISER.

6.0 DETERMINATION OF NET ASSET VALUE

The Net Asset Value of the Fund will be determined as of each Valuation Day.

The Net Asset Value per Unit of each respective share class will be calculated by the Administrator in conjunction with the Custodian(s) using the following formula:

- the total assets of the Fund subtracted by the total liabilities applicable to the relevant share class, and divided by
- the total number of outstanding Units of each respective share class on such Valuation Day.

The assets of the Fund are segregated from the assets of the Funds Company.

For determination of the Net Asset Value, normally traded investments shall be valued at the last available bid price or official closing price provided by the stock exchange on the Valuation Day at which such investment traded, unless such price is not representative. In respect of an investment for which a representative price is not readily available or where such investment is not regularly traded, the value shall be based on independent third party valuation. For other types of assets, the Administrator and the Investment Manager shall determine the method of valuation. The value of all assets and liabilities denominated in a currency other than US Dollars shall be converted to US Dollars at the last available closing exchange rate on the Valuation Day as determined by the Administrator.

There will be deducted from the total value of the Fund's assets all accrued debts and liabilities, including:

- a) Investment Management Fee and other fees and disbursements of the Investment Manager earned but not yet paid;
- b) Any allowance for the Fund's estimated annual audit, legal and other fees;
- c) Fees and charges of the Custodian and Administrator and brokerage fees;
- d) Fee and charges of the Registrar and Transfer Agent;
- e) Fees and charges of the Directors;
- f) Charges in respect of the sale of Investments of the Fund contracted to be sold;
- g) The gross acquisition consideration of investments or other property contracted to be purchased for the Fund;
- h) Reserves authorised or approved by the Directors or the Investment Manager for duties and charges or taxes or contingencies (accrued where appropriate on a day-to-day basis);
- i) The aggregate amount of all borrowings and interest, commitment fees and other charges arising in connection therewith (accrued where appropriate on a day to day basis);
- j) Other liabilities of the Fund of whatsoever nature (which shall, where appropriate, be deemed to accrue from day to day) including outstanding payments on any Units previously redeemed and, as from the record date in respect thereof, any dividends declared and not paid (contingent liabilities being valued in such manner as the Directors may determine from time to time in any particular case);
- k) All costs relating to any litigation in which the Fund is involved.

The fees deductible are variable among the share classes, i.e. particular fees applicable to a share class will be considered as part of the liabilities for the purposes of calculating the NAV per Unit of the particular share class.

The Net Asset Value of the Fund and the Units will be expressed in US Dollars and will be rounded to the nearest cent and in the case of 0.5 of a cent being rounded up, with any rounding benefit to be retained by the Fund and any items denominated in other currencies are converted in US Dollars at prevailing exchange rates as determined by the Administrator.

In the case of unlisted securities, the Investment Manager will get the security valued from independent auditors or obtain quotes from 3rd party brokers.

The Net Asset Value of the Fund and the Units shall be calculated for each Business Day and the Administrator will make available and/or communicate to the Funds Company, the Investment Manager and the Unit Holders the Net Asset Value no later than 5.00 p.m. (Bahrain time) on the next Business Day.

In calculating the Net Asset Value of the Fund or per Unit, the Administrator may rely upon, and will not be responsible for the accuracy of, financial data furnished to it by third parties including automatic processing services, brokers, market makers or intermediaries, and any administrator or valuations agent of other collective investments into which the Fund invests.

However, the Administrator shall take all reasonable steps wherever possible to independently verify prices including having processes that identify stale pricing as well as pricing variations and fluctuations where relevant. Where accurate pricing of assets is not possible, the Administrator will discuss the procedure with the Investment Manager.

7.0 THE FUND FEES AND EXPENSES

The Fund bears fees and expenses incidental to its operation. These include:

7.1 Launching Cost

These include legal, translation, printing, postage and circulation costs of the Prospectus and related documents, registration and listing fees, advertising, road show and initial organisational and offering expenses associated with the establishment of the Fund. These costs are estimated at US Dollars 350,000 and will be capitalised and amortised over a period not exceeding 5 years as per the International Financial Reporting Standards.

7.2 Investment Management Fee and Performance Fee

Under the Investment Management Agreement, the Fund will pay the Investment Manager a fixed fee of 2% per annum of the Net Asset Value for Class B Units and 2.25% per annum of the Net Asset Value for Class DI and Class DA Units, accrued daily and payable quarterly, and an incentive fee of 10% per annum of the appreciation in Net Asset Value which exceeds 10% per annum in any given financial year, subject to a "High Water Mark". The incentive fees will be payable annually.

The Investment Manager shall receive a Performance Fee equal to 10 per cent. of any increase in the Net Asset Value per Unit (after the calculation of the Investment Management Fee and all other fees and expenses of the Fund, but before the deduction of any accrued Performance Fee) as of the end of each Performance Fee Calculation Period above the High Water Mark provided that the Net Asset Value per Unit at the end of the Performance Fee Calculation Period exceeds an amount equal to the Net Asset Value per Unit as at the beginning of such Performance Fee Calculation Period increased by the Hurdle Rate.

For the purposes of calculating the subscription price of Units on any Valuation Day other than the last day of the Performance Fee Calculation Period, the Performance Fee as at that Valuation Day will be calculated with the Hurdle Rate reduced pro rata to the unexpired portion of the Performance Fee Calculation Period and deducted from Net Asset Value of the Fund.

In the event that Units are redeemed on any Valuation Day other than the last day of the Performance Fee Calculation Period, the Performance Fee in respect of such Units shall be calculated as at such Valuation Date, with the Hurdle Rate reduced pro rata to the unexpired portion of the Performance Fee Calculation Period and reduced from the Net Asset Value per Unit in respect of those Units and paid to the Investment Manager. Payment of a Performance Fee in these circumstances will not have the effect of resetting the High Water Mark.

For the purposes of calculating the subscription prices and the redemption prices of Units on any Valuation Day the Performance Fee as at that Valuation Day will be accrued but in calculating the Net Asset Value per Unit as at the end of the relevant year-end for determining the Performance Fee such accrual will be ignored.

In the event that Units are redeemed, the Performance Fee in respect of such Units shall be calculated as at the date of such redemption, based on annualised returns, and payable immediately.

7.3 Sub-Management Fee
