The Fund will ratify all actions taken by the Oversight Committee members in accordance with the terms of the Articles of Association and this Prospectus and shall indemnify the Oversight Committee members (each an "indemnified party") to the full extent permitted by the laws of the DIFC against any liability, actions, proceedings, claims, demands, costs or expenses reasonably incurred or sustained by it in connection with any debt, claim, action, demand, suit, proceeding, judgment, decree, liability or obligation of any kind in which it becomes involved as a party or otherwise, by virtue of its being or having been an Oversight Committee member except where such debt, claim, action, demand, suit, proceeding, judgment, decree, liability or obligation arises as a result of any fraud, negligence or wilful default on the part of the relevant indemnified party. Subject to any provision of the laws of the DIFC to the contrary, no indemnified party shall be liable for any damage, loss, costs or expenses to or of the Fund at any time unless caused by the indemnified party's fraud, negligence or wilful default.

The Custodian will not be responsible for any cash, securities and/or other assets comprising the assets of the Fund which are not deposited with or held to the Custodian's order. In particular, the Custodian will not be responsible for any cash, securities and/or other assets placed with co-custodians, brokers or any other party outside the Custodian's global custodian network. The Custodian will not participate in transactions and activities.

Notwithstanding the appointment of the Custodian and the fact that the Custodian will hold the legal title to the Fund Property, the Fund Manager shall remain responsible for the Fund Property.

The secretary of the Shariah Supervisory Board, in such an event, will decide whether or not an additional meeting needs to be held.

- vi. The minutes of each meeting will be recorded by the secretary of the Shariah Supervisory Board, and those minutes will include details of decisions or pronouncements made by the members of the Shariah Supervisory Board. Thereafter, the Fund Manager will be notified of any action items which are relevant to either the Fund or a Sub-Fund.

The Shariah Supervisory Board reserves final authority with regard to the Shariah compliance of all business and investment activities of the Fund or the relevant Sub-Fund as well as the audit of its investment records for Shariah compliance. The assessment of the Shariah Supervisory Board with regard to Shariah compliance of all business and investment activities of the Fund or the relevant Sub-Fund is binding on the Fund and the relevant Sub-Fund in terms of Shariah compliance. The Shariah Supervisory Board may delegate certain authorities to Islamic Finance Advisory & Shariah Controls division of Mashreq Al Islami (Islamic Banking Division of Mashreqbank PSC) as its sole discretion.

The role of the Shariah Supervisory Board is to provide guidance and advice to the Fund Manager on Shariah compliance only. Accordingly, the Shariah Supervisory Board (and any committee thereof) will not (and cannot) make an investment decision on behalf of the Fund or the relevant Sub-Fund.

The Shariah Supervisory Board comprises the following members:

The Custodian will receive out of the assets attributable to the Fund a custody fee calculated as a percentage of Net Asset Value of the Fund per annum (between 0.03% and 0.24% depending on the jurisdiction/platform in/on which the assets are held), subject to a minimum fee of USD 3,000 per month which is to be based on month-end valuation of the Fund, to be allocated to each Sub-Fund in accordance with the section "Net Asset Value" below. Each person on the Shariah Supervisory Board will receive from each Sub-Fund a supervisory fee of USD 10,000 per annum paid annually in arrears, unless specified otherwise in the relevant Annex. Such supervisory fee will be pro-rated for any part year and will be reviewed on an annual basis. The Shari'ah Supervisory Board fees shall be allocated to each Sub-Fund in accordance with the section "Net Asset Value" below.

Zakah

Payment of Zakah is the responsibility of the Shareholders and will not be paid directly by the Fund. Further information concerning Zakah is available in the annual financial statements of the Fund and of the relevant Sub-Fund.

Other Fees and Expenses

The Fund will also pay the cost and expenses of: (i) of all transactions carried out by it or on its behalf; and (ii) the administration of the Fund, including (a) the charges and expenses of legal advisers and the Registered Auditor, (b) brokers' commissions (if any) and any issue or transfer taxes chargeable in connection with any securities transactions, (c) all taxes and corporate fees payable to governments or agencies, (d) any Value added Tax ("VAT") added to services provided to the Fund or any relevant Sub-Fund and generally any VAT that becomes payable on any payments made by the Fund or on behalf of the relevant Sub-Fund may be grossed up, deducted and or accounted for, as applicable, and will as a consequence, be at the expense of the Fund and or the relevant Sub-Fund, (e) financing charges, (f) communication expenses with respect to investor services and all expenses of meetings of Shareholders and of preparing, printing and distributing financial and other reports, proxy forms, prospectuses and similar documents, (g) the cost of insurance (if any), (h) litigation and indemnification expenses and extraordinary expenses not incurred in the ordinary course of business, (i) marketing and promotional expenses, (j) all other organisational and operating expenses, and (k) all costs, charges and expenses properly incurred by the Fund Administrator, Custodian or Registrar in the performance of their respective duties and all reasonable out-of-pocket expenses incurred by the Fund Administrator, Custodian, Registrar or non-executive directors wholly and exclusively in the performance of its/their respective duties.

The total cost and expenses of establishing the Fund of approximately USD 80,000 were paid by the Fund out of proceeds of the initial issue of Shares. These cost and expenses were allocated to the Mashreq Al-Islami Income Fund in accordance with allocation rules set forth under "Net Asset Value" below.

If further Sub-Funds are created in the future, these Sub-Funds will bear, in principle, their own formation expenses.

The Director of the Fund will receive no remuneration or reimbursement of expenses in respect of their role. All of the above charges are subject to review from time to time. However, the Fund Manager shall be required to give Shareholders at least 90 days' notice of any proposed increase or other change to its management fee, its Performance Fee or change to redemption costs and expenses set out below in relation to a Sub-Fund or Class.

Redemption Costs and Expenses

If the Fund incurs any costs, expenses or losses in respect of any redemption of Shares, including any profit paid or payable or any loss, premium, penalty or expense that may be incurred in liquidating or employing securities, deposits or financing to fund the redemption amount, these may be recovered from the redemption amount payable to the redeeming Shareholder.

Dilution Levy

In certain circumstances, the value of the Sub-Fund Property may be reduced as a result of charges incurred in dealings in the Sub-Fund's investments or through dealing in those investments at prices other than the mid-market price (including the cost of professional fees incurred, or expected to be incurred). In order to off-set this effect, known as "dilution", and the consequent potential adverse effect on the existing or remaining Shareholders in the relevant Sub-Fund, the Fund Manager has the power to charge a "dilution levy" when Shares are bought or sold. It is not, however, possible to predict accurately whether dilution will occur at any future point in time.

Any dilution levy charged must be fair to all Shareholders and potential Shareholders within the relevant Sub-Fund. The charging of a dilution levy will effectively reduce the redemption price or increase the purchase price of the relevant Shares. If charged, the dilution levy would be paid to the Fund and would become the property of the relevant Sub-Fund thus protecting the value of the Shares of the remaining Shareholder's holding Shares in that Sub-Fund. On occasions when the dilution levy is not charged there may be an adverse impact on the total assets of the relevant Sub-Fund. Notifications of the amount of the dilution levy will usually be sent to Shareholders by registered post or by email.

Minimum Initial Subscription and Holding Amounts

Subject to any applicable Rules, the Fund Manager will set and waive, in its discretion, a minimum subscription amount and a minimum ongoing holding amount for each Sub-Fund or Class, to be specified in the relevant Annex.

Subscriptions may only be made for a fixed amount and not for a specified number of Shares. The Fund Manager may discontinue the issue of new Shares in any Sub-Fund at any time in its discretion.

Minimum Subsequent Subscription Amount

Subject to any applicable Rules, the Fund Manager will set and waive in its discretion a minimum subsequent subscription amount, to be specified in the relevant Annex.

Prior Notice Requirements

The Fund Manager may in its discretion refuse to accept any application for subscription received after the first day of any prior notice period specified in the relevant Annex.

Subscription Fee

During and after any Initial Offer Period, a subscription fee equal to a percentage of the aggregate subscription amount may be charged or waived in whole or in part at the discretion of the Fund Manager. Subscription fees are generally paid to the financial intermediary through which the subscription application was made and are detailed in the relevant Annex.

Subscription Price per Share

After the Initial Offer Period, the subscription price in relation to a Sub-Fund or Class is the Net Asset Value per Share determined as at the relevant Subscription Date, increased by any applicable subscription fee.

Payment of Subscription Price

The Fund Manager, the Fund Administrator or its agent must receive the full Subscription Price of the Shares subscribed in immediately available funds in the base currency of the Class concerned not later than the date or time and/or day specified in the relevant Annex. No interest or profit will be paid on payments received prior to the closing date of any Initial Offer Period or prior to any Subscription Date or Valuation Date. No third party payment will be accepted.

Eligible Shareholders

Subject to the DFSA COB Module in respect of Client Classification, specific Shareholder eligibility requirements may apply to a particular Sub-Fund or Class and, if so, will be specified in the relevant Annex. The following eligibility requirements apply to all Sub-Funds irrespective of the Class:

The subscription agreement requires each prospective applicant for Shares to represent and warrant to the Fund that, amongst other things, the subscriber is able to acquire and hold Shares without violating applicable laws.

The Shares will also not be offered, issued or transferred to any person in circumstances which, in the opinion of the Fund Manager, might result in the Fund incurring any liability to taxation or suffering any other disadvantage which the Fund might not otherwise incur or suffer, or would result in the Fund being required to register under any applicable US Securities Laws.

Shares may generally not be issued or transferred to any US Person (as defined in the US Securities Laws), except that the Fund Manager may authorise the issue or transfer of Shares to or for the account of a US Person provided that:

- a. such issue or transfer does not result in a violation of the US Securities Act of 1933 (as amended) or the securities laws of any of the States of the US;
- b. such issue or transfer will not require the Fund to register under the US Securities Act of 1940 (as amended);
- c. such issue or transfer will not cause any assets of the Fund to be "plan assets" for the purposes of US Employee Retirement Income Security Act of 1974 (as amended); and
- d. such issue or transfer will not result in any adverse regulatory or tax consequences to the Fund or its Shareholders.

Each applicant for and transferee of Shares who is a US Person will be required to provide such representations, warranties or documentation as may be required to ensure that these requirements are met prior to the issue, or the registration of any transfer, of Shares.

The Fund will require from each Shareholder acting on behalf of other investors confirmation that any assignment of rights to Shares will be made in compliance with applicable securities laws in the jurisdictions where such assignment is made and that in unregulated jurisdictions such assignments will be made in compliance with the minimum holding requirement.

Anti-Money Laundering

For the purpose of prevention of money laundering, the Fund Manager will require to conduct due diligence/enhanced due diligence, along with a detailed verification of the background of any Subscriber applying to purchase Shares, including the Subscriber's identity, any beneficial owner underlying such Subscriber, the account, and the source of funds for the purpose of Know Your Client ("KYC").

The Fund Manager reserves the right to request such information/documents as is necessary to verify the identity of a Subscriber or investor and the underlying beneficial owner of the Shares.

The Fund Manager may also suspend the redemption rights of any Shareholder if the Fund Manager deems it necessary to do so to comply with any anti-money laundering laws or regulations applicable to the Fund, the Fund Manager or any of the Fund's service providers.

The Fund, the Fund Manager, the Fund's service providers and their respective directors, employees and agents shall be held harmless by all Shareholders against any loss arising as a result of any failure or delay in processing any subscription or redemption request if so doing is likely to cause any of them to breach any applicable laws or regulations.

Each Subscriber and Shareholder shall, upon request, supply such information or make sure representation to the Fund and the Fund Manager in connection with such anti-money laundering measures or procedures adopted by the Fund and the Fund Manager from time to time.

Acceptance of Subscriptions

The Fund Manager reserves the right to accept or refuse any subscription agreement for Shares in whole or in part.

Suspension of Subscriptions

The Fund Manager will suspend the issue of Shares of any Sub-Fund whenever the determination of the Net Asset Value of such Sub-Fund is suspended (see "Net Asset Value" section of this Prospectus).

Irrevocability of Subscriptions

Any request for subscriptions shall be irrevocable and may not be withdrawn by any Shareholder in any circumstances, even in the event of a suspension of the determination of the Net Asset Value of the relevant Sub-Fund. In the event of a suspension, the Fund will process the subscription request on the first applicable Valuation Date following the end of the period of suspension.

Confirmation of Subscription

Written confirmation of completed subscriptions (indicating the total number of full and fractional Shares (up to four decimals) issued to the Subscriber as of the applicable Subscription Date) will be sent to the Subscriber at the address provided in the subscription agreement as soon as reasonably practicable and in no event later than the last calendar day of the month following the Subscription Date as of which such Shares have been issued. Shares are issued in dematerialised form and no Share certificates will be issued.

REDEMPTION OF SHARES

Redemption Rights

Subject to the restrictions provided in this Prospectus and the relevant Annex, the Fund Manager may redeem Shares in accordance with the terms of the relevant Annex or any Shareholder may apply for the redemption of some or all of his Shares or of a fixed amount. Shares will be redeemed at the Redemption Price i.e. the Net Asset Value per Share determined as at the Redemption Date less any Dilution Levy. If the value of a Shareholder's holding on the relevant Redemption Date is less than the fixed amount which the Shareholder has applied to redeem, the Shareholder will be deemed to have requested the redemption of all of his Shares.

Prior Notice Requirements

The Fund Manager may in its discretion refuse to accept any Redemption Request received after the first day of any prior notice period specified in the relevant Annex.

Minimum holding Period

The Fund Manager may in its discretion determine that no Redemption Request will be accepted before the expiration of a minimum holding period specified in the relevant Annex. The Fund Manager may, subject to observing the principle of equal treatment of Shareholders, waive or reduce any minimum holding period requirement at any time in their discretion or if required by applicable law.

Minimum holding Amount

If as a result of a redemption, the value of a Shareholder's holding would become less than the minimum holding amount specified in the relevant Annex, the Fund Manager may decide to compulsorily redeem all Shares from that Shareholder. Before any such compulsory redemption, each Shareholder concerned will receive one month's prior notice to increase his holding above the applicable minimum holding amount at the applicable Net Asset Value per Share.

Redemption Price per Share

Shares may not be redeemed during any Initial Offer Period. After any Initial Offer Period, the Redemption Price per Share of each Class is the Net Asset Value per Share of such Class determined as at the Redemption Date, reduced by any applicable Dilution Levy.

Payment of Redemption Proceeds

Redemption proceeds, net of any applicable Dilution Levy, are paid in the base currency of the relevant Sub-Fund or Class. Unless otherwise provided in the relevant Annex, the net redemption proceeds will be paid as soon as reasonably practicable and normally within five Business Days after the relevant Net Asset Value per Share as at the relevant Redemption Date has been calculated and is available and the original Redemption Request has been received by the Fund Manager. Redemption proceeds will only be paid in favour of the relevant Shareholder and will be paid by electronic transfer (net of the electronic transfer fee) to the account instructed by that Shareholder.

Whilst the Fund intends to make all redemptions in cash, if requested by a Shareholder, redemptions may be made in kind (in specie) at the discretion of the Fund Manager. In order to satisfy payment of the redemption proceeds to such Shareholder in kind, the Fund Manager will allocate to the Shareholder investments from the portfolio of assets of the relevant Sub-Fund equal to the value of the Shares to be redeemed. The nature and type of assets to be transferred in such case shall be determined on a fair and reasonable basis and without prejudicing the interests of the other Shareholders. The valuation shall be determined in accordance with the rules and principles set out in the "Net Asset Value" section of this Prospectus, and shall be confirmed by a special report of the Registered Auditor. The costs of any such redemptions in kind shall be borne by the redeeming Shareholder.

Compulsory Redemption of Shares

If the Fund Manager becomes aware that a Shareholder of record is holding Shares for the account of a person who does not meet the Shareholder eligibility requirements specified in "Subscription For Shares" above and in the relevant Annex, or is holding Shares in breach of any law or regulation or otherwise in circumstances having, or which may have, adverse regulatory, tax or fiscal consequences for the Fund or a majority of its Shareholders, or otherwise be detrimental to the interests of the Fund or a majority of its Shareholders, the Fund Manager may compulsorily redeem such Shares in accordance with the provisions of the Articles of Association at the prevailing Redemption Price of the relevant Sub-Fund. Shareholders are required to notify the Fund and the Registrar immediately if they cease to meet the Shareholder eligibility requirements specified in "Subscription For Shares" above or in the relevant Annex, or hold Shares in breach of any law or regulation or otherwise in circumstances having, or which may have, adverse regulatory, tax or fiscal consequences for the Fund or a majority of its Shareholders or be detrimental to the interests of the Fund or a majority of its Shareholders.

Large Redemptions

If Redemption Requests of more than 10% of the total number of Shares outstanding of any Sub-Fund are received in respect of any Redemption Date, the Fund Manager may decide to defer any Redemption Request in whole or in part, so that the 10% limit is not exceeded. Under these circumstances, redemptions may be deferred to a next following Valuation Date being no later than the next Redemption Date, as the Fund Manager may decide, and such Valuation Date will constitute a Redemption Date for the purpose of the provisions hereof. Any Redemption Requests in respect of the relevant Redemption Date so reduced will be given priority over subsequent Redemption Requests received for the succeeding Redemption Date, subject always to the 10% limit. The limitation will be applied pro rata to all Shareholders who have requested redemptions to be effected on or as at such Redemption Date so that the proportion redeemed of each holding so requested is the same for all such Shareholders.

Suspension of Redemptions

Redemption of Shares of any Sub-Fund will be suspended whenever the determination of the Net Asset Value of such Sub-Fund is suspended (see "Net Asset Value" section of this Prospectus).

Irrevocability of Redemption Requests

Redemption Requests of Shares are irrevocable and may not be withdrawn by any Shareholder in any circumstances, except in the event of a suspension of the determination of the Net Asset Value of the relevant Sub-Fund. In the event of such a suspension, the Shareholders of the relevant Sub-Fund, who have made a Redemption Request, may give written notice to the Fund that they wish to withdraw their Redemption Request.

Exchanges between Sub-Funds

Shareholders may exchange Shares in one Sub-Fund for Shares in any other Sub-Fund established and any such exchange will be treated as two transactions, namely, a redemption of the Shares held in the relevant Sub-Fund and a subscription for Shares in the other Sub-Fund and the provisions in relation to redemptions and subscriptions as stated in this Prospectus (including in relation to charges) will apply to both transactions.

Exchanges between Classes

Shareholders may exchange Shares in one Class ("**Switch-Out**") for Shares in any other Class ("**Switch-In**") free of charge. Any such exchange will be treated as two transactions, namely, a Switch-Out effected by a redemption of the Shares held in the relevant Class and a Switch-In effected by a subscription for Shares in the other Class. Both the Switch-Out and the Switch-In shall have the same settlement date and occur at the relevant Net Asset Value per Share of the respective Class. The provisions in relation to redemptions and subscriptions as stated in this Prospectus, except in relation to charges, will apply to both the Switch-Out and the Switch-In.

GENERAL

Meetings of the Director

The Director will hold at least two meetings every twelve months commencing from the date of registration of the Fund with the DFSA. At each of the two mandatory meetings the periodic reports specified under "Reports to Shareholders" below will be presented.

Meetings of Shareholders

An annual meeting of Shareholders will be held at least every twelve months commencing from the date of registration of the Fund with the DFSA. The convening of each annual general meeting shall be made in accordance with the Law, the CIR and the Articles of Association, and each Shareholder shall receive a procedures manual in respect of such meeting setting out and covering the position with regard to, amongst other things, voting rights, proxies, minutes and variation of class rights and class meetings. The annual report specified under "Reports to Shareholders" below will be presented at each meeting.

The Fund Manager, on receipt of a valid request in writing from a Shareholder or Shareholders entitled to request such a meeting, shall immediately call an extraordinary general meeting of Shareholders. Such request must be signed by a Shareholder or Shareholders who, at the date of such request, is or are registered as a Shareholder or Shareholders representing not less than 10% of the value of all the Shares in the Fund then in issue. The calling of such extraordinary general meeting shall be made in accordance with the Law, the CIR and the Articles of Association, and each Shareholder shall receive a procedures manual in respect of such meeting setting out and covering the position with regard to, among other things, voting rights, proxies, minutes and variation of class rights and class meetings.

An extraordinary general meeting of Shareholders duly convened and held in accordance with the Law and the CIR shall, by the passing of a Special Resolution, require, authorise or approve any act, matter or document in respect of which any such a resolution is required. Such a resolution shall have no other powers or effect. Where no Special Resolution is specifically required or permitted by the Law or the CIR, any resolution of the Shareholders eligible to vote shall be passed by an Ordinary Resolution.

Alterations to the Fund Generally

1. Matters requiring a Special Resolution

If the Fund Manager considers that any proposed change to the Fund, a Sub-Fund or Share Class constitutes a fundamental change (as described in the Law and in the CIR), a Special Resolution approving such proposal must be passed by the Shareholders affected by such a fundamental change at a meeting of those Shareholders convened solely for that purpose.

2. Matters requiring an Ordinary Resolution

If the Fund Manager considers that any proposed change to the Fund, a Sub-Fund or Share Class constitutes a materially significant change (as described in the Law), an Ordinary Resolution approving such proposal must be passed by the Shareholders affected by such a materially significant change at a meeting of those Shareholders convened solely for that purpose.

3. Matters merely requiring pre-event notification to Shareholders

If the Fund Manager considers that any proposed change to the Fund, a Sub-Fund or a Share Class constitutes a significant change (as described in the CIR), the Fund Manager will give the relevant Shareholders affected by such a significant change reasonable notice of the proposed change before the change is effected.

4. Matters merely requiring post-event notification to Shareholders

If the Fund Manager considers on reasonable grounds that any proposed change to the Fund, a Sub-Fund or a Share Class will not adversely affect the relevant Shareholders' rights, then any such change may be made by the Fund Manager and the Fund Manager shall notify the relevant Shareholders after the change has been effected.

Dissolution and Amalgamation of Sub-Funds

1. A Sub-Fund may be dissolved by compulsory redemption of Shares of the relevant Sub-Fund, at the discretion of the Fund Manager;

- i. if the Net Asset Value of the relevant Sub-Fund has decreased below USD 1 million;
- ii. if the Sub-Fund shall cease to be authorised or otherwise officially approved;
- iii. if any law shall be passed or otherwise enacted which renders it illegal or, in the opinion of the Fund Manager, impractical or inadvisable to continue the relevant Sub-Fund;
- iv. if required by the DFSA to terminate the Fund or the relevant Sub-Fund; or

- v. if the Fund Manager, at any time, determines that it is in the best interests of the Fund, the Sub-Fund, the relevant Shareholders or the Fund Manager that the Sub-Fund be dissolved.
2. The Redemption Price for the relevant Shares will be the Net Asset Value per Share (taking into account actual realisation prices of the investments and realisation expenses), calculated as of the Valuation Date at which such a decision took effect.
3. The Fund Manager shall serve a written notice to the holders of the relevant Shares prior to the effective date of the compulsory redemption, which will indicate the reasons for, and the procedure of, the redemption operations. Unless it is otherwise decided in the interest of, or to keep equal treatment between the Shareholders, the Shareholders of the Sub-Fund concerned may continue to request redemption of their Shares free of charge (but taking into account actual realisation prices of investments and realisation expenses) prior to the effective date of the compulsory redemption.
4. Notwithstanding the powers conferred to the Fund Manager by the preceding paragraph, a general meeting of Shareholders of any Sub-Fund may, upon proposal from the Fund Manager, redeem all the Shares of such Sub-Fund and refund to the Shareholders the Net Asset Value of their Shares (taking into account actual realisation prices of investments and realisation expenses) calculated as of the Valuation Date at which such decision shall take effect. There shall be no quorum requirements for such a general meeting of Shareholders at which resolutions shall be adopted by simple majority of those present or represented, if such a decision does not result in the liquidation of the Fund.
5. Any asset which has remained unclaimed shall be dealt with in accordance with the applicable CIR.
6. All redeemed Shares shall be cancelled.
7. Under the circumstances provided for under paragraph 1 above, the Fund Manager may decide to allocate the assets of any Sub-Fund to those of another existing Sub-Fund within the Fund and to re-designate the Shares of the Sub-Fund concerned as Shares of another Sub-Fund (following a split or consolidation, if necessary, and the payment of the amount corresponding to any fractional entitlement to Shareholders). Such decision will be notified to the Shareholders concerned (and, in addition, the notification will contain information in relation to the new Sub-Fund), one month before the date on which the amalgamation becomes effective in order to enable Shareholders to request redemption of their Shares, free of charge, during such period.
8. Notwithstanding the powers conferred on the Fund Manager by the preceding paragraph, a contribution of the assets and liabilities attributable to any Sub-Fund to another Sub-Fund of the Fund may be decided upon by a general meeting of the Shareholders of the contributing Sub-Fund for which there shall be no quorum requirements and which shall decide upon such an amalgamation by resolution adopted by simple majority of those present or represented, if the amalgamation does not result in the liquidation of the Fund.
9. A contribution of the assets and liabilities attributable to any Sub-Fund to a sub-fund of a third party entity shall be decided by a general meeting of Shareholders and shall require a resolution of the Shareholders of the contributing Sub-Fund where no quorum is required and adopted by a simple majority of the Shares represented at such meeting.
10. All the provisions relating to the dissolution and amalgamation of Sub-Funds shall, with any necessary modifications, apply to the dissolution and amalgamation of any Class.

Winding-up or Dissolution

The Fund may be wound up at any time:

- a. by the Fund Manager determining that it is in the best interests of the Fund, the Shareholders or the Fund Manager that the Fund be wound up;
- b. by the Shareholders by the passing of a Special Resolution at an extraordinary general meeting directing the Fund Manager to wind up the Fund; or
- c. otherwise in accordance with the Law and/or the CIR.

Upon such determination being made the Fund Manager will advise the Shareholders in writing that such determination has been made and will set out the Fund Manager's plans for the liquidation of the assets of the Fund and distribution of the Fund assets to the Shareholders.

Upon a winding-up of the Fund, the proceeds from the liquidation of the assets of each Sub-Fund shall be applied:

- a. first, in paying to any party any unpaid fees, costs or expenses payable by the Sub-Fund and then unpaid (and retaining adequate provision for all liabilities properly so payable and for the cost of the winding up); and
- b. second, in paying to the relevant Shareholders of that Sub-Fund the balance of the proceeds, which balance shall be apportioned between such Shareholders pro rata to the number of Shares in the Sub-Fund held by each of them.

Restrictions on Sale, Transfer and Assignment

Subject to the restrictions mentioned under "Eligible Shareholders" above, the restrictions set out below and to any additional restrictions specified in the relevant Annex and the Articles of Association, Shares are freely transferable.

United States

The Fund Manager will not consent to a transfer of Shares and the Shares may not be transferred, directly or indirectly, to any person in circumstances which, in the opinion of the Fund Manager, might result in the Fund incurring any liability to taxation or suffering any other disadvantage which the Fund might not otherwise incur or suffer, or would result in the Fund being required to register under any applicable US Securities Laws. The Fund Manager will also not consent to a transfer of Shares and the Shares may not be transferred, directly or indirectly, to any US Person (as defined in the US Securities Laws) except in the circumstances specified under "Eligible Shareholders" above. The Fund has and intends to exercise the right of mandatory redemption of any Shares sold or acquired in contravention of the foregoing prohibitions.

Net Asset Value

The Fund constitutes a single legal entity, but the assets of each Sub-Fund shall be invested for the exclusive benefit of the Shareholders of the corresponding Sub-Fund and the assets of a specific Sub-Fund are solely accountable for the liabilities, commitments and obligations of that Sub-Fund.

The Fund will establish a separate pool of assets and liabilities in respect of each Sub-Fund and the assets and liabilities shall be allocated in the following manner:

- a. the net proceeds from the issue of Shares in a Sub-Fund are to be applied in the books of the Fund to that Sub-Fund and the assets and liabilities and income and expenditure attributable thereto are applied to such Sub-Fund subject to the provisions set forth below;
- b. where any income or asset is derived from another asset, such income or asset is applied in the books of the Fund to the same Sub-Fund as

the asset from which it was derived and on each revaluation of an asset, the increase or diminution in value is applied to the relevant Sub-Fund;

- c. where the Fund incurs a liability which relates to any asset of a particular Sub-Fund or to any action taken in connection with an asset of a particular Sub-Fund, such liability is allocated to the relevant Sub-Fund;
- d. if any asset or liability of the Fund cannot be considered as being attributable to a particular Sub-Fund, such asset or liability will be allocated to all the Sub-Funds pro rata to their respective Net Asset Values, or in such other manner as the Fund Manager, acting in good faith, may decide; and
- e. upon the payment of distributions to the Shareholders of any Sub-Fund, the Net Asset Value of such Sub-Fund shall be reduced by the amount of such distributions.

In respect of each Sub-Fund, the Net Asset Value per Share of the relevant Sub-Fund is determined up to four decimal points in the base currency of such Sub-Fund as at each Valuation Date by dividing the net assets attributable to that Sub-Fund by the total number of Shares of that Sub-Fund then outstanding. The Net Asset Value per Share of each Sub-Fund as at a Valuation Date will be calculated and available no later than 20 Business Days after the relevant Valuation Date.

In respect of each Sub-Fund that has more than one Class of Shares, the Net Asset Value per Class is determined up to four decimal points in the relevant currency of each Class as at each Valuation Date by multiplying the Net Asset Value per Share for that Sub-Fund by the number of Shares outstanding in the relevant Share Class expressed to four decimal places. The Net Asset Value per Class for each Sub-Fund that has more than one Class of Shares will be calculated and available no later than 20 Business Days after the relevant Valuation Date.

As the Net Asset Value per Share, and where relevant, the Net Asset Value per Class will be determined after the day on which subscription, redemption or exchange requests are made, investors will not know the total number of whole and fractional Shares which will be issued, nor the net redemption value of their Shares as at the day on which their request for subscription, redemption or exchange is made.

The net assets of each Sub-Fund consist of the value of the total assets attributable to such Sub-Fund less the total liabilities (including any charges that are paid, or are payable, on acquiring or disposing of an asset) attributable to such Sub-Fund, calculated at such time as the Fund Manager shall have set for such purpose. The Fund Administrator, acting independently and based on the information received from the Fund Manager, shall determine the value of the assets of the Fund as follows:

- a. the value of any cash on hand or on deposit, bills and demand notes and accounts receivable, prepaid expenses, cash dividends or distributions declared or made and profits accrued, and not yet received shall be deemed to be the full amount thereof, unless, however, the same is unlikely to be paid or received in full, in which case the value thereof shall be determined after making such discount as the Fund Manager may consider appropriate to reflect the true value thereof;
- b. the value of securities which are quoted, traded or dealt in on any stock exchange shall be based on the latest available bid price for a long position or the last available offer price for a short position on the stock exchange which is normally the principal market of such securities, and each security traded on any other regulated market shall be valued in a manner as similar as possible to that provided for quoted securities;
- c. for non-quoted securities or securities not traded or dealt in on any stock exchange or other regulated market, as well as quoted or non-quoted securities on such other market for which no valuation price is available, or securities for which the quoted prices are, in the opinion of the Fund Manager, not representative of the fair market value, the value thereof shall be determined prudently and in good faith by the Fund Manager on the basis of cost or on the valuations from counterparties, issuers or brokers;
- d. securities issued by any open-ended collective investment fund shall be valued at their last available price or net asset value as reported or provided by such funds or their agents (to be confirmed in writing by a director of the Fund Manager);
- e. liquid assets and money market instruments may be valued at nominal value plus any accrued profit or on an amortised cost basis; and
- f. all other securities and assets will be valued at fair market value as determined in good faith pursuant to procedures established by the Fund Manager.

The Fund Manager is authorised to apply other valuation principles for the assets of the Fund and/or any Sub-Fund if the valuation principles set forth above appear impossible to apply in the circumstances or inappropriate for the asset concerned. Any Sub-Fund investing in a collective investment fund will determine its Net Asset Value primarily on the basis of the value of its interests in such collective investment fund, as reported or provided by such collective investment fund. The Fund and the Fund Administrator, acting upon the recommendations provided by the Fund Manager, will make all reasonable efforts to correctly assess the value of all portfolio securities based on the information made available to them, and such valuations will be binding upon the Fund and its Shareholders absent manifest error. Neither the Fund, nor the Fund Administrator nor the Fund Manager has any control over the valuation methods and accounting rules adopted by the collective investment funds in which the Sub-Fund may invest and no assurance can be given that such methods and rules will at all times allow the Fund to correctly assess the value of its assets and investments. If the value of a Sub-Fund's assets is adjusted after any Valuation Date (as a consequence, for instance, of any adjustment made by a collective investment fund to the value of its own assets), the Fund Manager will not be required to revise or re-calculate the Net Asset Value on the basis of which subscriptions, redemptions or exchanges of Shares of that Sub-Fund may have been previously accepted. In any Sub-Fund, the Fund Manager may determine to establish reserves, which may be caused by revaluation of assets and make provisions for contingencies. The value of assets denominated in a currency other than the base currency of a given Sub-Fund or Class shall be determined by taking into account the rate of exchange prevailing at the relevant Valuation Date. The Net Asset Value per Share, and where relevant, the Net Asset Value per Class, of each Sub-Fund and the issue and redemption prices per Share will be available from the Registered Office of the Fund and at the DIFC office of the Fund Administrator as soon as practicable after each Valuation Date in accordance with the requirements of the CIR. The Fund will also publish the Net Asset Value per Share, and where relevant, the Net Asset Value per Class, of each Sub-Fund as soon as practicable after each Valuation Date in accordance with the requirements of the CIR. The Net Asset Value per Share, and where relevant, the Net Asset Value per Class, of each Sub-Fund will in particular be published on the websites of Mashreq Asset Management, Bloomberg, Reuters and Zawya.

The Fund may where exceptional circumstances arise, at any time, suspend the calculation of the Net Asset Value of any Sub-Fund, whereupon the issue and redemption of Shares of that Sub-Fund will be suspended, under any one or more of the following circumstances:

- a. where there is a closure of or suspension of trading on any market on which any assets of that Sub-Fund are traded;
- b. where a breakdown occurs in any of the means normally employed by the Fund Administrator or the Fund Manager to ascertain the value of the assets of that Sub-Fund or when for any other reason the value of the assets of that Sub-Fund cannot reasonably be ascertained;
- c. where circumstances exist as a result of which in the opinion of the Fund Administrator or the Fund Manager it is not reasonably practicable for the Sub-Fund to realise any assets, which together constitute a material proportion of the overall assets of that Sub-Fund; and/or
- d. where, for any other reason, the Fund Manager determines on reasonable grounds that it is in the best interests of the Sub-Fund and/or the relevant Shareholders.

Any such suspension (and the reason therefore) will be notified to the relevant Shareholders and the DFSA as soon as practicable after such suspension has been declared. Suspensions will generally require to cease within 28 days of the effective date of suspension. However, the Fund Manager is entitled to apply to the DFSA for an extension of such suspension. The Fund Manager will notify relevant Shareholders of any extension

granted as soon as practicable. The Fund Manager will notify the Shareholders and the DFSA as soon as practicable after such suspension has been lifted.

Reports to Shareholders

In accordance with the requirements of the Law and the CIR, the Fund Manager will provide to the Shareholders:

- a. an annual report within 4 months of the end of the Financial Year; and
- b. an interim report in respect of the relevant Sub-Fund within 2 months of the six month anniversary of the date of registration of the Fund with the DFSA and thereafter within 2 months of each six month anniversary of the Financial Year.

Each such report will contain the information, comparisons, statements and third party reports required pursuant to the Law and the CIR. Each report will be supplied, as appropriate, to the Shareholders free of charge and will also be available free of charge during ordinary office hours at the offices of the Fund Manager.

In addition, historical financial information, a comprehensive analysis of each Sub-Fund's investments portfolio, all reports, notices and information in relation to the Fund may be found at the Fund Manager's website for this Fund being <http://www.mashreqcapital.ae/capital/islamic-products>

The financial statements of the Fund and each Sub-Fund will be prepared in accordance with International Financial Reporting Standards (IFRS) and will be audited annually by a Registered Auditor appointed by the Fund Manager.

The Fund Manager will ensure that the Registered Auditor provides a report which will be included in the annual report to the Shareholders in accordance with the requirements of the CIR.

Communications to Shareholders

Communications to Shareholders will be sent to their registered addresses recorded in the Shareholders Register by registered post or by email.

Communications to the Fund

Governing Law

The governing law of the Fund and this Prospectus shall be the laws of the DIFC.

INVESTMENT CONSIDERATIONS

An investment in the Fund involves significant risks which prospective investors should consider before participating in the Fund. There can be no assurance that any rate of return will be realised or that significant capital losses will not occur. The Fund's returns may be unpredictable and, accordingly, its investment programme is not suitable as the sole investment vehicle for an investor. An investor should only invest in the Fund as part of an overall investment strategy, and only if the investor is able to withstand a total loss of its investment. Prospective investors should carefully consider each and every risk involved in this Prospectus, and all other information contained in this Prospectus. In considering participation in the Fund, an investor should be aware of certain considerations which include, but are not limited to, the following:

General

The value of an investment in the Fund may fluctuate. There is no guarantee nor can any assurance be given that the targeted returns of the Fund will be met, that any other strategic objectives of the Fund will be achieved, or that investors will receive a return of all or any part of their investment. An investment in the Fund could result in a loss for an investor of part or whole of the investment.

Market Risks

Market Risk: The market price of securities may go up or down, sometimes rapidly or unpredictably. Securities may decline in value due to factors affecting securities markets generally or particular industries represented in the securities markets. The value of a security may decline due to general market conditions which are not specifically related to a particular company, such as real or perceived adverse economic conditions, changes in the

general outlook for corporate earnings, changes in finance costs or currency rates or adverse investor sentiment generally. They may also decline due to factors which affect a particular industry or industries, such as labour shortages or increased production costs and competitive conditions within an industry. During a general downturn in the securities markets, multiple asset classes may decline in value simultaneously. Past performance is not a guide for future performance. An investor may not get back the amount invested. An investment in the Fund should be regarded as long term in nature, and there can be no guarantee that the Fund's objectives will be achieved.

Currency Risk: The price of the Shares is denominated in US Dollars or in AED . There is a risk that the currency of the securities will decline in value relative to the US Dollar or AED. Currency rates in foreign countries may fluctuate significantly over short periods of time for a number of reasons, including changes in finance costs, intervention (or the failure to intervene) by central banks, or by the imposition of currency controls or other political developments.

Reference Rate Risk: As nominal reference rates rise, the value of Fixed income securities is likely to decrease. Securities with longer maturities tend to be more sensitive to changes in reference rates, usually making them more volatile than securities with shorter maturities.

Credit Trends: The value of specific investments may decline due to developments in the trends of particular industries and/or the financial conditions of the credit parties. In particular, the Fund could lose money if the issuer or guarantor of a fixed income security, or the counterparty to a Shariah-compliant derivatives contract, Shari'ah-compliant alternative to a repurchase agreement or a financing against a portfolio of securities, is unable or unwilling to make timely principal and/or finance costs, or to otherwise honour its obligations. The Fund will be subject to the possibility of the insolvency, bankruptcy or default of a counterparty with which the Fund trades such instruments, which could result in substantial losses to the Fund. Securities are subject to varying degrees of credit risk, which are often reflected in credit ratings. These conditions may result in the Fund sustaining loss on certain investments, particularly if the Fund is required to liquidate investments during adverse markets conditions.

MENA Volatility Risks: Potential Market Volatility in the Middle East and North Africa results from the fact that the prices of certain securities listed on stock markets in the Middle East and North Africa have been subject to sharp fluctuations and sudden declines and no assurance can be given as to the future performance of listed securities in general. Prospective investors should therefore be aware that the value of shares and the income derived from them is likely to fluctuate.

Investment in Emerging Countries and Markets: Investment in securities and markets in emerging countries and markets may be subject to different and greater risks than investments in more developed countries and markets because of a variety of factors, including currency controls and the fluctuation of currency exchange rates, changes in governmental administration or economic or monetary policy, or changed circumstances in dealings between nations. Other factors include high rates of inflation and the potential for substantial depreciation in the value of local currencies.

In many cases, the economies of emerging countries are heavily dependent upon international trade and, accordingly, have been, and may continue to be, adversely affected by trade barriers, exchange controls, managed adjustments in relative currency values and other protectionist measures imposed or negotiated by the countries with which they trade. These economies also may have been, and may continue to be, adversely affected by economic conditions in the countries with which they trade.

There may be less publicly available information about emerging countries and markets, and issuers in these countries and markets may not be subject to uniform accounting, auditing, and financial reporting standards and requirements comparable to those for issuers in more developed countries and markets. Securities of some issuers in emerging countries and markets are less liquid and more volatile than securities of comparable issuers in more developed countries and markets and brokerage commissions may be higher. Securities markets in emerging countries may also be less liquid and more volatile than those in more developed countries. Moreover, there may be less governmental supervision and regulation of securities markets, brokers, and securities issuers than in more developed countries and markets.

Liquidity Risks: Liquidity risk exists when particular investments are difficult to purchase or sell. The Fund's investments in illiquid securities may reduce the returns of the Fund because it may be unable to sell the illiquid securities at an advantageous time or price.

Securities in which the Fund may invest may include those that are either listed on one or more stock exchanges or traded over the counter, as well as those that are not publicly traded. In the case of securities that are listed or traded on organised exchanges or other markets, there may be less market liquidity than would typically be available for companies of comparable size that are traded in the securities markets of developed countries. This reduced liquidity may diminish the Fund's ability to act on investment information and research in both buying and selling securities. In addition, it may limit the size of investments and increase the cost of transacting in such markets.

Securities that are not publicly traded may be resold in privately negotiated transactions, but they may be less liquid than publicly traded securities and the prices realised upon their resale may be less than those that could be realised if the securities were publicly traded. Furthermore, companies whose securities are not publicly traded may be in early stages of development, which may involve substantial business and financial risks. Such companies may not be subject to the disclosure and other investor protection requirements that may apply in the case of publicly traded securities. If such securities are required to be registered under the securities laws of one or more jurisdictions before being sold, the expenses of such registration may be chargeable against the proceeds of the sale.

Political and Legal Factors: Investments of the Fund are subject to political risk, being the measure of a country's willingness to honour its foreign obligations and a function of stability of country's government and its leadership, country's ideological background and country's past history with foreign investors.

The Fund may invest in emerging countries where there is a high potential return on invested capital but also a high degree of either political or economic risk, or both, or where existing regulations may impede repatriation of investment capital or earnings. In such cases, the potential return may be offset, or more than offset, as a result of adverse political or other developments. In that regard, it is generally the case that investments in any emerging country could be affected by factors such as nationalisation, expropriation without just compensation, exchange control, confiscatory taxation, political changes, governmental regulation, social, political, or diplomatic instability (including military or other internal political coups, insurrections and wars), and potential difficulties in enforcing contractual obligations.

In addition, the legal systems in emerging countries are often not as sophisticated as those in developed nations and it may be difficult to predict with any degree of assurance the resolution of legal questions presented in adjudications or other governmental proceedings. In addition, the availability of judicial and other remedies may, as a practical matter as well as a legal matter, be far more restricted than in developed countries. These factors may adversely affect the companies in which the Fund invests as well as the enforceability of the rights of the Fund as a security-holder in such companies.

Investment and Repatriation Restrictions: Some emerging countries have laws and regulations that preclude direct foreign investment in the securities of their companies. In certain emerging countries, however, indirect foreign investment in the securities of companies listed and traded on the stock exchanges in those countries is permitted through investment funds that have been specifically authorised. The Fund may invest in these investment funds and, in such a case, the Fund will bear its proportionate share of the expenses of the investment fund.

In addition, in some emerging countries, prior governmental approval for foreign investments may be required under certain circumstances. Moreover, the extent of foreign investment in domestic companies may be limited. Foreign ownership limitations also may be imposed by the charters of individual companies in emerging countries to prevent, among other concerns, violation of foreign investment limitations.

Repatriation of investment income, capital, and the proceeds of sales by foreign investors may require governmental registration and/or approval in some emerging countries. The Fund could be adversely affected by delays in or a refusal to grant required governmental registration or approval for such repatriation or by withholding taxes imposed by emerging countries on profit or distributions made on securities purchased by the Fund or gains

from the disposition of such securities.

Legislation Changes: The information in this Prospectus is based on existing legislation which may change. The value of the Fund's investments may be affected by uncertainties such as political developments, changes in government policies, taxation, currency repatriation restrictions, and restrictions on foreign investments in some or all of the countries in which the Fund may directly or indirectly invest.

Substantial Fees and Expenses: The operating expenses of the Fund which include, amongst other items, brokerage commissions and other trading expenses, valuation fees, investment expenses, as well as administrative, custodial, legal, accounting, audit and reporting expenses, are expected to equal a substantial percentage of the Fund Property each year. These expenses are in addition to the management fees payable by the Fund, and the amounts of each expense will be set out in the Fund's annual report available from the Fund Manager.

Trading Strategy of the Fund: The Fund will purchase approved Shariah-compliant fixed income and equity primarily with a view to hold unless there are short-term market opportunities. Prior to purchase, a full review of the value of these investments will be made. Trading in the securities will only occur when value targets have been achieved.

High Yield Risk: High yield securities, which are either rated below investment grade or non-rated, may be subject to greater levels of reference rate, credit and liquidity risk. High yield instruments generally are less liquid and do not trade frequently. The price may be significantly higher or lower than expected and at times, it may be difficult to sell high yield instruments promptly at an acceptable price. An economic downturn or period of rising reference rates could adversely affect the market for these securities.

Other Activities of the Fund Manager: The Fund Manager currently manages and intends to manage other customer accounts in the future. Orders for such accounts similar to those of the Fund may occur contemporaneously. There is no specific limit as to the number of accounts which may be managed by the Fund Manager. The performance of the Fund's investments could be adversely affected by the manner in which particular orders are entered for all such accounts.

Nature of an Investment Fund: The investments in this Fund are not deposits or other obligations of any bank or other financial institution, and are not guaranteed by any bank or other financial institution. Any investment in this Fund is therefore subject to investment risks, including the possible loss of the amount invested.

The Shares cannot be assigned, transferred, pledged, or otherwise encumbered except on the terms and conditions set forth in the Prospectus, and there is and will be no public market for the Shares prior to any listing which is at the sole discretion of the Fund Manager. Subject to certain conditions and restrictions, Shareholders may require the Fund to redeem all or part of their Shares as of each Redemption Date.

Execution Risks and Fund Manager Error: In order to seek positive returns in global markets, the Fund Manager's trading and investment for the Fund involves multiple portfolio managers, multiple instruments, multiple brokers and counter-parties, and multiple strategies. As a result, the execution of the trading and investment strategies employed by the Fund Manager for the Fund may often require rapid execution of trades, high volume of trades, complex trades, difficult to execute trades, use of negotiated terms with counter-parties such as in the use of derivatives and the execution of trades involving less common or novel instruments. In each case, the Fund Manager seeks best execution and has trained execution and operational staff devoted to executing, settling, and clearing such trades. However, in light of the high volumes, complexity, and global diversity involved, some slippage, errors, and miscommunications with brokers and counter-parties are inevitable and may result in losses to the Fund. Such losses may be caused by the Fund's brokers and counter-parties or by the Fund Manager or by a combination of the broker or counter-party and the Fund Manager.

The Fund Manager may but is not required to attempt to recover losses from brokers or counter-parties. The Fund Manager is not liable to the Fund for losses caused by brokers or counter-parties unless caused by the Fund Manager's own gross negligence or wilful default, or by a combination of gross negligence or wilful default of the broker or counter-party and the Fund Manager. The Fund Manager will be liable to the Fund for acts that constitute gross negligence or wilful default, in the event that the Fund Manager failed to act in good faith in the reasonable belief that such actions were in, or not opposed to, the best interests of the Fund, or if the Fund Manager is liable to the Fund for damages under the securities laws of the UAE. Shares in the Fund are only available for subscription by investors who understand that they and the Fund are waiving potential claims for damages arising from the operation of the Fund and expect some execution losses to the Fund.

Swap Agreement Risk: Swap agreements are individually negotiated and can be structured to include exposure to a variety of different types of investments, asset classes or market factors. Depending on their structure, swap agreements may increase or decrease a Fund's exposure to, for example, equity securities. Swap agreements can take many different forms and are known by a variety of names. Whether the Fund's use of swap agreements will be successful will depend on the Fund manager's and the Investment Manager's ability to select appropriate transactions for the Fund. Swap transactions may be highly illiquid and may increase or decrease the volatility of the Fund. Moreover, the Fund bears the risk of loss of the amount expected to be received under a swap agreement in the event of the default or insolvency of its counterparty. The Fund will also bear the risk of loss related to swap agreements, for example, for breaches of such agreements or the failure of the Fund to post or maintain required collateral. Many swap markets are relatively new and still developing. It is possible that developments in the swap markets, including potential government regulation, could adversely affect the Fund's ability to realise amounts to be received under such transactions.

Swaps may be individually negotiated transactions in the over-the-counter market in which the Fund assumes the credit risk of the other counterparty to the swap and is exposed to the risk of loss of the amount expected to be received under a swap agreement in the event of the default or insolvency of the swap counterparty. Such over-the-counter swap transactions may be highly illiquid and may increase or decrease the volatility of the Fund. If there is a default by a counterparty, the Fund under most normal circumstances will have contractual remedies pursuant to the swap agreement; however, exercising such contractual rights may involve delays or costs which could result in the net asset value of the Fund being less than if the Fund had not entered into the transaction. Furthermore, there is a risk that a swap counterparty could become insolvent and / or the subject of insolvency proceedings, in which event the recovery of the collateral posted by the Fund with such counterparty or the payment of claims under the swap agreement may be significantly delayed and the Fund may recover substantially less than the full value of the collateral entrusted to such counterparty or of the Fund's claims.

The Fund will also bear the risk of loss if it breaches the swap agreement or if it fails to post or maintain required collateral. Recent changes in law and regulation require certain types of swap agreements to be transacted on exchanges and / or cleared through a clearinghouse, and will in the future require additional types of swap agreements to be transacted on exchanges and / or cleared through a clearinghouse.

Equity securities: Equity securities represent ownership interests in a company or corporation, and include common stock, preferred stock and warrants and other rights to acquire such instruments. Investments in equity securities in general are subject to market risks that may cause their prices to fluctuate over time. The value of convertible equity securities is also affected by prevailing reference rates, the credit quality of the issuer and any call provisions. Fluctuations in the value of equity securities in which the Fund invests would cause the net asset value of the Fund to fluctuate.

Small Cap Risk: Where the Fund may invest in small capitalisation companies, such investments involve greater risk than is customarily associated with larger, more established companies due to the greater business risks of small size, limited markets and financial resources, narrow product lines and a frequent lack of depth of management. The securities of small or medium-sized companies are often traded over-the-counter, and may not be traded in volumes typical of securities traded on a national securities exchange. Consequently, the securities of smaller companies may have limited market stability and may be subject to more abrupt or erratic market movements than securities of larger, more established companies or the market averages in general. In a declining market these stocks can also be hard to sell at a price that is beneficial to the Fund.

Derivatives Risk: Derivatives are subject to liquidity risk, reference rate risk, market risk and credit risk. They also involve the “basis risk” - changes in the value of the derivative may not correlate perfectly with the underlying asset.

Reliance on Fund Manager Expertise and management risk: The Fund is subject to management risk because it is an actively managed investment portfolio. The Investment Manager will apply investment techniques and risk analyses in making investment decisions for the Fund, but there can be no guarantee that these will produce the desired results.

The success of the Fund, and its ability to generate profits, depends on the management and the financial and managerial expertise of the Fund Manager. Investors will not be permitted to evaluate investment opportunities or relevant business, economic, financial or other information that will be used by the Fund Manager in making investment decisions.

Investors are required to conduct their own due diligence before committing themselves to this investment opportunity.

Attraction and Retention of Key Personnel: The failure to attract and retain key personnel could significantly affect the business. The success of companies in the private investment and investment banking industry depends to a considerable extent on the skills and knowledge of the key personnel.

Regulations: Future developments in relevant government or central bank regulations and supervision may adversely affect securities markets in the region, by imposing restrictions on trading or transferring securities. Restrictions may also be imposed by relevant securities authorities and stock exchanges.

Additionally, despite legislation to encourage foreign investment, the legal systems in some emerging markets are undergoing rapid change and in others remains underdeveloped, leading to significant risks for investors, including risks relating to the ownership and transferability of assets and the enforcement of proprietary rights.

Term of Investment: The Fund's assets will be concentrated in securities with a view to medium to long-term capital increases. Accordingly, an investor should consider the investment to be a medium to long-term commitment.

Non-Participation in Management: Investors in the Fund will have no right or power to participate in the management of the Fund or of any of its assets. All aspects of management of investments are entrusted to the Fund Manager. Investors will have no opportunity to control the day-to-day operation of the Fund, including the investment and disposition decisions.

Taxation: Prospective investors should consult legal advisors in the countries of their citizenship, residence and domicile to determine the possible tax or other consequences of purchasing, holding and redeeming Shares under the laws of their respective jurisdictions.

Although currently no tax will be levied on the income or capital gain earned by the Fund in the DIFC, any change in tax laws and subsequent levying of tax on income or capital gains will impact the performance of the Fund. VAT was introduced in the UAE on 1 January 2018 and, accordingly, VAT may be added to services provided to the Fund or any relevant Sub-Fund. Any VAT that becomes payable on any payments by the Fund or on behalf of the relevant Sub-Fund may be grossed up, deducted or accounted for, as applicable, and will, as a consequence, be at the expense of the Fund and/or the relevant Sub-Fund.

Shariah Compliance: It is possible that, subsequent to an investment being made by a Sub-Fund, that it is determined that part or all of that investment was not, or due to a change in circumstances, is no longer, Shariah-compliant. In the event of such an occurrence the Fund Manager, with the assistance of the Shariah Supervisory Board, will determine what action should be taken to liquidate such investment and/or purify the Sub-Fund. Purification may involve the payment to a charity selected by the Fund Manager (on the advice of the Shariah Supervisory Board) of moneys arising from or which is related to a non-Shariah-compliant activity or circumstance.

Cross Sub-Funds Liability: As at the date of this Prospectus, the Fund has two Sub-Funds operating and the Fund may launch further Sub-Funds in the future. Notwithstanding this, the Fund is a single legal entity and, as a matter of the laws of the DIFC and the DFSA, all of the assets of the Fund may be available to meet any of its liabilities, regardless of whether these are attributable to a particular Sub-Fund (in other words, the Sub-Funds are not statutorily or constitutionally “ring-fenced”). In practice, cross class liability will only arise where a particular Sub-Fund becomes insolvent or exhausts its assets and is unable to meet all of its liabilities. In case the Fund is unable to meet liabilities attributable to any particular Sub-Fund out of the assets attributable to that particular Sub-Fund, the remaining liabilities will be met by the Fund Manager in order to ensure that no other Sub-Fund is affected.

Conflicts of Interest

General: The below outlines some potential conflicts of interests between the Fund, the Fund Manager and the Investment Manager and other parties as noted below. Where a conflict of interest may arise, the Fund, the Fund Manager, the Investment Manager and/or the Fund Administrator will disclose the same to the Shareholders and seek to deal with the same in a fair and equitable manner and in the interests of the Fund and the Shareholders.

The below is not necessarily a comprehensive list of all potential conflicts of interest.

Group of Shareholders: The Shareholders may have conflicting investment, tax and other interests with respect to their investment in the Fund. Conflicts of interests may arise in connection with decisions made by the Director, including with respect to the nature of investments that may be more beneficial for one Shareholder than for another. In selecting investments appropriate for the Fund, the Director (advised by the Investment Manager) will consider the investment and tax objectives of the Fund and its Shareholders as a whole, rather than the tax or other implications for (or objectives of) any single Shareholder.

Other Activities: There is no limitation with respect to the Investment Manager's, the Director's or the Fund Manager's other activities and/or investments or with respect to other investment portfolios that the Investment Manager may be engaged to advise thereon, or other investment vehicles to which the Fund Manager may provide services. Neither the Fund Manager nor the Investment Manager (including their affiliates or any person connected with them) shall be deemed to be affected with notice of (or be under any duty to disclose to) the Fund, any fact or thing which comes to their notice in the course of them rendering similar services to others or in the course of their business in any other capacity or in any other manner whatsoever.

Allocation of Time: The Director who will be performing the financial and managerial activities for the Fund and the personnel of the Investment Manager, has substantial investment management and advisory responsibilities for clients other than the Fund, including other investment vehicles organized, or which may be organized in the future, by the Investment Manager itself or in participation with others. These persons will devote a portion of their time to managing the affairs of the Fund, and they could have conflicts of interest in allocating time and other services and functions among the Fund and other current or future activities. The Fund Administrator provides services for numerous investment funds. Their officers and employees are involved in other business activities and are not required to devote any specific amount of time to providing administrative services to the Fund.

Investment Manager: Employees or officers of the Investment Manager or its affiliates may directly or indirectly acquire Shares or undertake other transactions with and in relation to the Fund. Any acquisition or divestment of Shares or such other transaction with and in relation to the Fund by such individuals shall be on terms which are no more favourable than those applying to all Shareholders and in all cases will comply with the Rules relating to Shareholder approval of all such proposed transactions. The Investment Manager will maintain internal procedures to ensure that the size

and timing of any subscriptions or redemptions of Shares by such individuals shall not conflict with any duties owed to Shareholders and the Fund by the Investment Manager or its affiliates or any employees or officers thereof.

THE FOREGOING INVESTMENT CONSIDERATIONS DO NOT PURPORT TO BE A COMPLETE SUMMARY OF ALL OF THE RISKS INVOLVED IN THIS OFFERING. PROSPECTIVE INVESTORS SHOULD READ ANY SUPPLEMENTAL DOCUMENTATION PROVIDED, IF ANY, IN THEIR ENTIRETY BEFORE DETERMINING WHETHER TO COMMIT TO THE FUND.

This Annex forms an integral part of the Prospectus, which should only be read together as part of the same document.

Investment objective and policy

Principal Investment Objective

The investment objective of the Mashreq Al-Islami Income Fund is to provide Shareholders with Shariah-compliant fixed returns. The Mashreq Al-Islami Income Fund will only invest in Shariah-compliant fixed income securities approved by the Shariah Supervisory Board. The Mashreq Al-Islami Income Fund's return objective will be to achieve annual net returns above the market return as represented by a generally accepted index (e.g. JP Morgan Middle East Sukuk Index) over the life of the Mashreq Al-Islami Income Fund.

The Mashreq Al-Islami Income Fund will invest in Shariah-compliant fixed income securities globally. The following investment restrictions will be in place:

1. all investments will either be pre-approved for Shariah compliance by the Shariah Supervisory Board, or the investment will undergo an approval process of the Shariah Supervisory Board prior to investment and the Shariah Supervisory Board will review all investments of the Mashreq Al-Islami Income Fund on a quarterly basis and, should they change their decision on any investment during a review period, then the Mashreq Al-Islami Income Fund will liquidate the relevant investment within 90 days of the notification by the Shariah Supervisory Board of the change of their decision;
2. up to 30% of the investments of the Mashreq Al-Islami Income Fund may be made outside of the MENA and South Asia regions;
3. up to 30% of the investments of the Mashreq Al-Islami Income Fund may be privately placed in Shariah-compliant fixed income securities;

5. there will be no credit rating restriction in respect of any investment of the Mashreq Al-Islami Income Fund, however, Mashreq Capital's analyst team will undertake a comprehensive credit review of each investment prior to purchase as well as regular monitoring of all investments in the Mashreq Al-Islami Income Fund's portfolio following an investment being made;
6. excess cash in the Mashreq Al-Islami Income Fund may be held on overnight deposit with banks and on terms approved by the Shariah Supervisory Board; and
7. a minimum of 1% of the Sub-Fund's share capital at any one time must not be invested in order to meet any liquidity requirements which may arise from time to time.

Investment Process

Prior to any investment being made by the Mashreq Al-Islami Income Fund a detailed analysis of the investment will be made by the analyst team of the Fund Manager. Once a decision has been made to invest in a security, the next step will depend upon whether the proposed investment is covered under the Service Level Agreement between the Fund Manager and the Islamic Finance Advisory & Shariah Controls division of Mashreq Al-Islami (Islamic Banking Division of Mashreq bank psc) which provides for mechanism of preapproval based on certain criteria. If the investment satisfies the defined criteria, the investment will be made. If not, then the entire investment proposal will be sent to the Shariah Supervisory Board for their approval. Investments will only be made following the approval of the Shariah Supervisory Board from a Shariah compliance perspective.

Breaches and Correction

If the investment objective, policy and investment restrictions are breached for reasons beyond the control of the Fund Manager or as a result of the exercise of subscription rights (passive breaches), the Fund Manager will adopt as its priority the remedying of such situation, taking due account the interests of the Shareholders. The Fund Manager will mention any breaches in the next interim or annual report sent to the Shareholders.

The base currency of the Mashreq Al-Islami Income Fund Classes is either the United States Dollar or the UAE dirham. Shares in the Mashreq Al-Islami Income Fund will be issued and redeemed in United States Dollars or respectively AED. However, the Mashreq Al-Islami Income Fund's assets may be invested in securities and other investments that are denominated in currencies other than United States Dollars or AED. Accordingly, the value of an investment may be affected favourably or unfavourably by fluctuations in exchange rates. In addition, prospective investors whose assets and liabilities are primarily denominated in currencies other than the United States Dollar or AED should take into account the potential risk of loss arising from fluctuations in the rate of exchange between the United States Dollar, AED and such other currency, which rates may be obtained from third party providers of exchange rate information such as Bloomberg.

The Fund Manager shall monitor the Fund's compliance with the investment policies and restrictions set out above.

The Mashreq Al-Islami Income Fund may establish a Shariah-compliant credit facility for such purpose and will be able to drawdown, repay and again drawdown amounts under that facility.

If the value of a Shareholder's holding on the relevant Redemption Date is less than the fixed USD amount or AED which the Shareholder has applied to redeem or if, following the requested redemption a Shareholder will hold Shares in the Mashreq Al-Islami Income Fund worth less than the minimum holding, the Shareholder will be deemed to have requested the redemption of all his Shares.

Whilst the Fund intends to make all redemptions in cash, if requested by a Shareholder, redemptions may be made in kind (in specie) at the discretion of the Fund Manager. In order to satisfy payment of the redemption proceeds to such Shareholder in kind, the Fund Manager will allocate to the Shareholder assets of the Mashreq Al-Islami Income Fund equal to the value of the Shares to be redeemed. The nature and type of assets to be transferred in such case shall be determined on a fair and reasonable basis and without prejudicing the interests of the other Shareholders. The valuation used shall be confirmed by a special report of the Registered Auditor. The costs of any such redemptions in kind shall be borne by the redeeming Shareholder.

If the Mashreq Al-Islami Income Fund incurs any costs, expenses or losses in respect of any redemption of Shares, including any profit paid or payable or any loss, premium, penalty or expense that may be incurred in liquidating or employing securities, deposits or financing to fund the redemption amount, these may be recovered from the redemption amount payable to the redeeming Shareholder.

Voting Rights

This includes the right to vote on any matters (or amendments) which would affect the rights or entitlements of a Shareholder, such as a fundamental change requiring a Special Resolution or a materially significant change requiring an Ordinary Resolution.

Distribution

The Class "D Accumulation" Shares, Class "D Income" Shares, Class "D AED Accumulation" Shares and Class "D AED Income" Shares will develop a distinct Net Asset Value per Share. The Director intends to declare distributions in respect of the Class "D Income" Shares and Class "D AED Income" Shares. The Fund Manager in its capacity as Director of the Company shall at its discretion decide the amount of any distribution to be declared or made. Any such distribution can, at the discretion of the Fund Manager, be made out of all sources (without being exhaustive, profit, realized or unrealized gains, whether or not net of realized or unrealized losses, any dividends or distributions received from the underlying securities, profit earned, any other cash receipts, capital and generally any surpluses) and will be paid to the Shareholders of record within 20 Business Days for the preceding quarter. Upon the declaration of any distributions to the Shareholders of the relevant Share Classes of the "D Income" Shares and Class "D AED Income" Shares, the Net Asset Value per Share of the relevant Share Class of the Mashreq Al Islami Income Fund will be reduced by the amount of such distributions. Payment of the distributions will be made as indicated on a Shareholder's subscription application form, as amended from time to time, to the account indicated on the Shareholder Register or via the issuance of additional Shares. All Shareholders recorded in the register of the Registrar and Transfer Agent at the end of the Record Date (including the Record Date transactions) of each quarter shall be eligible for such distribution. Distributions will be paid out either via bank transfer or via the issuance of additional Shares to the relevant Class "D Income" Share and Class "D AED Income" Shareholders. Shareholders have the option to opt for the method of payment of their choice by way of the submission of their subscription agreement. The selection upon subscription to subscribe for Class "D Income" Shares and Class "D AED Income" Shares may be changed by the relevant Shareholder by giving notice to the Fund Manager no less than 30 days before the relevant Valuation Date for determining the Net Asset Value per Class for the Class "D Income" Shares and Class "D AED Income" Shares for the preceding quarter. The Fund Manager may waive or reduce such prior notice period to be given by a Shareholder at its own discretion.

The Director does not currently intend to declare distributions in respect of the Class "B" Shares or Class "C" Shares but reserves the right to do so at any time in its discretion or if such distribution are necessary in light of prevailing market conditions. The declaration of any distributions will be made in accordance with the Law, the CIR and the Articles of Association.

Any distribution unclaimed after a period of twelve months from the date of declaration of such distribution will be automatically forfeited and will be donated to a registered charity approved by the Shariah Supervisory Board.

Mashreq Al Islami Equity Fund

This Annex forms an integral part of the Prospectus, which should only be read together as part of the same document.

Investment objective and policy

Principal Investment Objective

The Investment Objective of the Mashreq Al Islami Equity Fund is to seek long term capital appreciation through investments made primarily in Shariah-compliant equities listed on the stock exchanges of the MENA region. The Mashreq Al Islami Equity Fund will follow S&P Shariah-compliant screening methodology, as set out in the section headed "Index Eligibility Criteria" below, which is approved by the Shariah Supervisory Board. These investments may be made directly and through other means when deemed appropriate. In addition to the investment strategies described in this Annex, if the Mashreq Al Islami Equity Fund is unable, for any reason, to invest directly in a local market at any time, it may take exposure to the relevant market by investing in equity-linked participation notes, which will not embed derivatives or create leverage. These are Sukuk structured to provide a return based on the performance of a single equity security, basket of equity securities or an equity index. There is no limit to investment in such equity-linked participation notes provided that they constitute transferable securities that are listed or traded on recognised markets.

Target Markets

The Fund Manager may waive a portion of such fee or decide to transfer part or all of such fee to the relevant distributor, in its discretion.

Management Fee

The Fund Manager will receive a management fee from the Mashreq Al Islami Equity Fund, payable out of assets attributable to the Mashreq Al Islami Equity Fund of:

- a. 1.5% per annum of the Net Asset Value per Class in respect of the Class "E" Shares;
- b. 1.0% per annum of the Net Asset Value per Class in respect of the Class "F" Shares;
- c. 1.5% per annum of the Net Asset Value per Class of the Class "G Accumulation" Shares;
- d. 1.5% per annum of the Net Asset Value per Class of the Class "G Income" Shares;
- e. 1.5% per annum of the Net Asset Value per Class of the Class "G AED Accumulation" Shares; and
- f. 1.5% per annum of the Net Asset Value per Class of the Class "G AED Income" Shares,

(calculated before payment of accrued Fees) to be calculated and accrued as at each Valuation Date and payable quarterly on the first day of each calendar quarter commencing on the Initial Closing Date.

Performance Fee

The Performance Fee in respect of each Class (equal to 15% of appreciation in the Net Asset Value above the Hurdle HWM) is calculated on each Valuation Day but finally determined and payable as of the end of each Calculation Period, which shall run each year from 1 January (except for the first year in respect of which the Calculation Period shall start on the Initial Issue Date for each Class) until:

1. the relevant financial year end;
2. the Redemption Date with respect to Shares redeemed before the financial year end; or
3. the date of final liquidation of the assets of the Sub Fund;

and the Hurdle Rate of return (equal to 10%) shall be pro-rated (on the basis of the fraction having as numerator the number of days elapsed and as denominator 365) in respect of any such shorter Calculation Period.

If an Investor subscribes for Shares at a time when the Net Asset Value per Share is higher or lower than the Hurdle HWM, certain adjustments will be made to reduce inequities that could otherwise result to the investor or to the Fund Manager.

Adjustments

If Shares are subscribed for at a time when the Net Asset Value per Share is less than the Hurdle HWM, the Investor will be required to pay a Performance Fee with respect to any subsequent appreciation in the value of those Shares above the Hurdle HWM. With respect to any appreciation in the value of those Shares from the Net Asset Value per Share at the date of subscription up to the Hurdle HWM, the Performance Fee will be charged at the end of each year by redeeming at the prevailing Net Asset Value per Share such number of the investor's Shares as have an aggregate Net Asset Value (after accrual for any Performance Fee) equal to the percentage specified as the Performance Fee of any such appreciation (a "**Performance Fee Redemption**"). The aggregate Net Asset Value of the Shares so redeemed will be paid to the Fund Manager as a Performance Fee. The technique of Performance Fee Redemptions is employed to ensure that in each Class of the Mashreq Al Islami Equity Fund a uniform Net Asset Value per Share is maintained. As regards the Investor's remaining Shares, any appreciation in the Net Asset Value per Share of those Shares above the Hurdle HWM will be charged a Performance Fee in the normal manner described above.

If Shares are subscribed for at a time when the Net Asset Value per Share is greater than the Hurdle HWM, the investor will be required to pay an additional amount in excess of the then current Net Asset Value per Share equal to the percentage specified as the relevant Performance Fee of the difference between the then current Net Asset Value per Share (before accrual for the Performance Fee) and the Hurdle HWM (an "**Equalisation Credit**"). At the date of subscription the Equalisation Credit will equal the Performance Fee per Share accrued with respect to the other Shares of such Class (the "**Maximum Equalisation Credit**").

The Equalisation Credit is payable to account for the fact that the Net Asset Value per Share has been reduced to reflect an accrued Performance Fee to be borne by existing Investor's holding Shares of the relevant Class and serves as a credit against Performance Fees that might otherwise be payable by the Fund, but that should not, in equity, be charged against the Investor making the subscription because, as to such Shares, no favourable performance has yet occurred. The Equalisation Credit ensures that all Investors of the relevant Class have the same amount of capital at risk per Share.

The additional amount invested as the Equalisation Credit will be at risk in the Fund and will therefore appreciate or depreciate based on the performance of the Shares subsequent to the issue of the relevant Shares but will never exceed the Maximum Equalisation Credit. In the event of a decline as at any Valuation Day in the Net Asset Value per Share, the Equalisation Credit will also be reduced by an amount equal to the percentage specified in the Performance Fee of the difference between the Net Asset Value per Share (before accrual for the Performance Fee) at the date of issue and as at that Valuation Day. Any subsequent appreciation in the Net Asset Value per Share will result in the recapture of any reduction in the Equalisation Credit but only to the extent of the previously reduced Equalisation Credit up to the Maximum Equalisation Credit.

At the end of each year, if the Net Asset Value per Share of the relevant Class (before accrual for the Performance Fee) exceeds the prior Hurdle HWM for that class and series, that portion of the Equalisation Credit equal to the percentage specified in the Performance Fee of the excess, multiplied by the number of Shares subscribed for by the Investor, will be applied to subscribe for additional Shares of the same Class for such Shareholder. Additional Shares will continue to be so subscribed for at the end of each Calculation Period until the Equalisation Credit, as it may have appreciated or depreciated in the Mashreq Al Islami Equity Fund after the original subscription for Shares was made, has been fully applied. If such Investor redeems his Shares before the Equalisation Credit has been fully applied, such Investor will receive additional redemption proceeds equal to the Equalisation Credit then remaining multiplied by a fraction, the numerator of which is the number of Shares of the relevant Class being redeemed and the denominator of which is the number of Shares of the relevant Class held by the Investor immediately prior to the redemption in respect of which an Equalisation Credit was paid on subscription.

The Director may make such further regulations concerning share issue and redemption as it shall from time to time deem necessary for an equitable treatment of Participating Shareholders as to any performance, incentive or similar fees due from the Fund.

It should be noted that the Management Fees and Performance Fees are based in part upon unrealised gains (as well as unrealised losses) and that such unrealised gains and/or losses may never be realised.

On termination of the Fund Management Agreement, the Fund Manager shall be entitled to receive all fees and other moneys accrued but not yet paid on a pro rata basis up to the date of such termination as provided in the Fund Management Agreement and shall repay on a pro-rata basis fees and other moneys paid to it in respect of any period after the date of such termination.
